Collaborative Creative Thought and Practice in Music Margaret S. Barrett, 2016-05-23 The notion of the individual creator a product in part of the Western romantic ideal is now troubled by accounts and explanations of creativity as a social construct While in collectivist cultures the assimilation but not the denial of individual authorship into the complexities of group production and benefit has been a feature the notion of the lone individual creator has been persistent Systems theories acknowledge the role of others yet at heart these are still individual views of creativity focusing on the creative individual drawing upon the work of others rather than recognizing the mutually constitutive elements of social interactions across time and space Focusing on the domain of music the approach taken in this book falls into three sections investigations of the people processes products and places of collaborative creativity in compositional thought and practice explorations of the ways in which creative collaboration provides a means of crossing boundaries between disciplines such as music performance and musicology and studies of the emergence of creative thought and practice in educational contexts including that of the composer and the classroom The volume concludes with an extended chapter that reflects on the ways

in which the studies reported advance understandings of creative thought and practice The book provides new perspectives to our understandings of the role of collaborative thought and processes in creative work across the domain of music including composition musicology performance music education and music psychology Soft Machine Graham

Bennett,2005 The definitive biography of Soft Machine whose pivotal role shaped progressive rock and pioneered jazz rock fusion **The Running Kind** David Cantwell,2022-05-17 2022 Belmont Award for the Best Book on Country Music International Country Music Conference Belmont University New and expanded biography of one of country music s most celebrated singer songwriters Merle Haggard enjoyed numerous artistic and professional triumphs including more than a hundred country hits thirty eight at number one dozens of studio and live album releases upwards of ten thousand concerts induction into the Country Music Hall of Fame and songs covered by artists as diverse as Lynryd Skynyrd Elvis Costello Tammy Wynette Bobby Blue Bland Willie Nelson the Grateful Dead and Bob Dylan In The Running Kind a new edition that expands on his earlier analysis and covers Haggard s death and afterlife as an icon of both old school and modern country music David Cantwell takes us on a revelatory journey through Haggard s music and the life and times out of which it came Covering the breadth of his career Cantwell focuses especially on the 1960s and 1970s when Haggard created some of his best known and most influential music songs that helped invent the America we live in today Listening closely to a masterpiece crowded catalogue including Okie from Muskogee Sing Me Back Home Mama Tried and Working Man Blues among many more Cantwell explores the fascinating contradictions most of all the desire for freedom in the face of limits set by the world or self imposed that define not only Haggard s music and public persona but the very heart of American culture
