American Dreams, American Nightmares Daniel Horowitz,2022-11-22 Two decades punctuated by the financial crisis of the Great Recession and the public health crisis of COVID 19 have powerfully reshaped housing in America By integrating social economic intellectual and cultural histories this illuminating work shows how powerful forces have both reflected and catalyzed shifts in the way Americans conceptualize what a house is for in an era that has laid bare the larger structures and inequities of the economy Daniel Horowitz casts an expansive net over a wide range of materials and sources He shows how journalists and anthropologists have explored the impact of global economic forces on housing while filmmakers have depicted the home as a theater where danger lurks as elites gamble with the fates of the less fortunate Real estate workshops and popular TV networks like HGTV teach home buyers how to flip or flop while

online platforms like Airbnb make it possible to play house in someone else's home. And as the COVID pandemic took hold many who had never imagined living out every moment at home found themselves cocooned there thanks to corporations like Amazon, Zoom, and Netflix.
