Newfarmer, Finn Tarp, John Page,2018 Although manufacturing has played an important role in the growth of developing countries Africa has lagged in this industry This book argues that activities sharing the characteristics of manufacturing including tourism and ICT are beginning to play an important role in Africa offering new opportunities for growth in coming decades

Agricultural Reform in Rwanda Chris Huggins,2017-10-15

International

observers have lauded Rwanda as an example of an African country taking control of its own development trajectory and as a market friendly destination for investment A key component of this narrative has been an ambitious programme of agricultural reform involving private firms NGOs and international charities The Rwandan government claims these reforms have been a resounding success tripling crop yields and helping to combat hunger Chris Huggins argues however that Rwanda s liberal modernising image sits poorly with the regime s continuing authoritarian tendencies Featuring in depth case studies of the effects of agricultural reform in three different regions and drawing on hundreds of interviews Huggins shows that the much vaunted liberalization of agriculture has in fact depended on the coercion of Rwandan farmers and in many cases has had a detrimental impact on their livelihoods With the Kagame regime now coming under increasing international scrutiny this work provides a timely look at the impact of market friendly authoritarianism in contemporary Africa making essential reading for students and scholars of development in the fields of sociology anthropology political science and economics

Peace Through Entrepreneurship Steven R. Koltai, 2016-08-30 Joblessness is the root cause of the global unrest threatening American security Fostering entrepreneurship is the remedy The combined weight of American diplomacy and military power cannot end unrest and extremism in the Middle East and other troubled regions of the world Steven Koltai argues Koltai says an alternative approach would work investing in entrepreneurship and reaping the benefits of the jobs created through entrepreneurial startups From 9 11 and the Arab Spring to the self proclaimed Islamic caliphate instability and terror breed where young people cannot find jobs Koltai marshals evidence to show that joblessness not religious or cultural conflict is the root cause of the unrest that vexes American foreign policy and threatens international security Drawing on Koltai s stint as senior adviser for Entrepreneurship in Secretary Hillary Clinton s State Department and his thirty year career as a successful entrepreneur and business executive Peace through Entrepreneurship argues for the significant elevation of entrepreneurship in the service of foreign policy not rural microfinance or mercantile trading but the scalable stuff of Silicon Valley and Sam Walton generating the vast majority of new jobs in economies large and small Peace through Entrepreneurship offers a nonmilitary long term solution at a time of disillusionment with Washington s big development approach to unstable and underdeveloped parts of the world and when the new normal is fear of terrorist attacks against Western targets beheadings in Syria and jihad Extremism will not be resolved by a war on terror The answer Koltai shows is stimulating entrepreneurial economic opportunities for the virtually limitless supply of desperate unemployed young men and women leading lives of endless economic frustration

The Violence of Law Jens Meierhenrich, 2024-04-30 Lawfare describes the systematic use and abuse of legal procedure for political ends This provocative book examines this insufficiently understood form of warfare in post genocide Rwanda where it contributed to the making of dictatorship Jens Meierhenrich provides a redescription of Rwanda s daring experiment in transitional justice known as inkiko gacaca By dissecting the temporally and structurally embedded mechanisms and processes by which change agents in post genocide

Rwanda manoeuvred to create modified legal arrangements of things past Meierhenrich reveals an unexpected jurisprudence of violence Combining nomothetic and ideographic reasoning he shows that the deformation of the gacaca courts and thus the rise of lawfare in post genocide Rwanda was not preordained but the outcome of a violently structured contingency The Violence of Law tells a disturbing tale and will appeal to scholars advanced students and practitioners of international and comparative law African studies and human rights Warlord Democrats in Africa Anders Themnér,2017-04-15 Post war democratization has been identified as a crucial mechanism to build peace in war ridden societies supposedly allowing belligerents to compete through ballots rather than bullets A byproduct of this process however is that military leaders often become an integral part of the new democratic system using resources and networks generated from the previous war to dominate the emerging political landscape The crucial and thus far overlooked question to be addressed therefore is what effect the inclusion of ex militaries into electoral politics has on post war security Can warlord democrats make a positive contribution by shepherding their wartime constituencies to support the building of peace and democracy or are they likely to use their electoral platforms to sponsor political violence and keep war affected communities mobilized through aggressive discourses This important volume containing a wealth of fresh empirical detail and theoretical insight and focussing on some of Africa s most high profile political figures from Paul Kagame to Riek Machar to Afonso Dhlakama represents a crucial intervention in the literature of post war democratization **Revival and Reconciliation** Phillip A. Cantrell,2022-01-18 Phillip A Cantrell II takes a critical look at the Anglican Church s crucial role in many aspects of Rwanda s history particularly its complicity with the current Rwandan regime He boldly illuminates the Anglican Church s culpability in the events leading to the genocide calling attention to the consequences of the church s unwavering support for the Rwandan regime *General Labour History of Africa* Stefano Bellucci,Andreas Eckert,2019 The first comprehensive and authoritative history of work and labour in Africa a key text for all working on African Studies and Labour History worldwide Foreign Policy in Post-Genocide Rwanda Jonathan R. Beloff,2020-07-29 This book examines how Rwandan elites within the government private sector and civil society perceive the nation s political and economic relationship with the international community Using testimonies and interviews of Rwandan political military and economic leaders and bureaucrats this book examines the intersubjective beliefs that formulate how Rwanda engages with the international community The book presents and analyses three primary intersubjective themes historical and possible future abandonment of Rwanda implementing an ideology of agaciro to promote self respect dignity and self reliance for state security and economic development and the belief in the government s obligation to promote human security for those who identify as Rwandan These perceptions help us understand how post genocide Rwanda engages with the international community in the pursuit of state security economic development and to prevent a future genocide This book will be of interest to students and scholars of African politics and international relations as well as the politics of post genocide states Governing Kenya Gedion

Onyango, Goran Hyden, 2021-04-15 This book is authored by some of the renowned scholars in Africa who take on the task to understand how Kenya is governed in this century from a public policy perspective. The book's public policy approach addresses three general and pertinent questions: 1. how are policies made in a political context where change is called for but institutional legacies tend to stand in the way? 2. how are power and authority shared among institutional actors in government and society? and 3. how effective is policymaking at a time when policy problems are becoming increasingly complex and involving multiple stakeholders in Africa. This book provides an updated and relevant foundation for teaching policy politics and administration in Kenya. It is also a useful guide for politicians, the civil society, and businesses with an interest in how Kenya is governed. Furthermore, it addresses issues of comparability: how does the Kenyan case fit into a wider African context of policymaking? This volume is a major contribution to comparative policy analysis by focusing on the policy processes in Kenya, a country undergoing modernization of its economic and political institutions. Written by experts with a keen eye for the commonalities and differences the country shares with other nations, it covers a range of topics like the role of experts and politicians in policymaking, the nature of public accountability, the impact of social media on policy actors, and the challenges of teaching policy studies in the country. As a first comprehensive study of an African nation, *Governing Kenya* will remain a key text for years to come. Michael Howlett, Burnaby Mountain Chair of Political Science, Simon Fraser University, Canada. A superb example of development scholarship which sets aside best practice nostrums and focuses on governance challenges specific to time and place while holding on to a comparative perspective. Useful to scholars and practitioners not only in Kenya but across developing areas. I strongly recommend it. Brian Levy, teaches at the School of Advanced International Studies, Johns Hopkins University, USA, and the University of Cape Town, South Africa. This book is an exploration of important deliberations of interest for those of us interested in deepening the understanding of public policy theories and their application within a specific African setting. Wilson Muna, Lecturer of Public Policy, Kenyatta University, Nairobi, Kenya. This collection of think pieces on public policy in Kenya gives the reader theoretical and practical hooks critical to the analysis of the implementation of the sovereign policy document in Kenya, the 2010 Constitution. Willy Mutunga, Chief Justice, President of the Supreme Court, Republic of Kenya, 2011-2016. *Governing Kenya* provides a comprehensive analysis of public policymaking in Kenya. The book integrates public policy theory with extensive empirical examples to provide a valuable portrait of the political and economic influences on policy choices in this important African country. The editors have brought together a group of significant scholars to produce an invaluable contribution to the literature on public policy in Africa. B. Guy Peters, Maurice Folk Professor of American Government, University of Pittsburgh, USA. **Genocide** Adam Jones, 2016-12-16 *Genocide: A Comprehensive Introduction* is the most wide-ranging textbook on genocide yet published. Miller, 2020-03-31 Genocide involves significant death and trauma Yet the enormous scope of genocide comes into view when one looks at the factors that lead to mass killing the struggle for survival during genocide and the ways survivors reconstruct their lives after the violence ends Over a one hundred day period in 1994 the country of Rwanda saw the genocidal slaughter of at least 800 000 Tutsi at the hands of members of the Hutu majority government This book is a powerful oral history of the tragedy and its aftermath from the perspective of its survivors Based on in depth interviews conducted over the course of fifteen years the authors take a holistic approach by tracing how victims experienced the horrific events as well as how they have coped with the aftermath as they struggled to resume their lives The Rwanda genocide deserves study and documentation not only because of the failure of the Western world to intervene but also because it raises profound questions about the ways survivors create a new life out of the ashes of all that was destroyed How do they deal with the all encompassing traumas of genocide Is forgiveness possible And what does the process of rebuilding teach us about genocide trauma and human life Civic Agency in Africa Ebenezer Obadare, Wendy Willems, 2014 Examines the variety of mostly unorganized and informal ways in which Africans exercise agency and resist state power in the 21st century through citizen action and popular culture and how the relationship between ruler and ruled is being reframed **Frontier Investor** Marko Dimitrijević, 2016-10-25 Where are the next decade's greatest investment opportunities Veteran investor Marko Dimitrijević argues that they can be found in frontier markets which account for seventy one of the world's seventy five fastest growing economies and 19 percent of the world's GDP Yet many investors ignore them Fueled by new access to technology and information frontier markets are emerging even faster than their predecessors making them an essential component of a globally diversified portfolio In *Frontier Investor* Dimitrijević shows through colorful case studies compelling charts and fascinating travel anecdotes that it is not only possible but prudent to invest in these unfamiliar and undervalued options Dimitrijević explains how frontier markets such as Nigeria Panama and Bangladesh are poised to follow the similar paths of Chinese Indian and Russian markets which were considered exotic two decades ago He details a strategy for how and where to invest directly or indirectly to profit from frontier growth Dimitrijević covers the risks political and otherwise of these markets the megatrends that promise exciting investment opportunities in the coming years and the prospects for countries beyond the frontier including Myanmar Cuba and even Iran Rich with experience and insight *Frontier Investor* opens up a whole new world and worldview to investors
