Studies on Biomarkers and New Targets in Aging Research in Iran Paul C. Guest, 2021-07-31 The Middle East is known as the cradle of civilization. It was the crossroads of ancient empires and the birthplace of major world religions. Today, it is the center of many world issues due to its economic, religious, and political importance. Although it has lagged behind many other regions of the world in medicinal research, this has increased dramatically in recent years with increasing numbers of relevant publications, and the country of Iran has spearheaded this progress. Much of the research has focused on increasing our understanding of the aging process and attempting to identify biomarkers and natural products to improve the human healthspan. This book provides a comprehensive overview of the research conducted in the Middle East on the health benefits of curcumin, a phytochemical derived from the famous spice turmeric. Hundreds of studies have now been published describing the health benefits of this spice. The importance of this research is exemplified by poor data regarding health and longevity: as only 0.08% of the population in Iran consists of individuals over 90 years of age. This is approximately 10 times lower than the percentage of this same age group in the United Kingdom and the United States of America, and almost 20 times lower than that in Japan. This book presents a series of reviews and meta-studies describing research which has resulted in identification of potential new biomarkers and drug targets for age-related disorders. All of the studies have focussed on the testing of curcumin and related products, which have already shown some promising leads in age-related conditions such as heart disease, diabetes,

cognitive impairment and cancer The authors in this series come from different centers and cities of Iran including Mashhad Tehran Isfahan Ahvaz Birjand Quchan and Yazd and many of the chapters feature collaborations with other countries of the Middle East and throughout the world including Brazil Italy Mexico Oman Poland Switzerland the United Kingdom and the United States of America This underscores the emergence of the Middle East into this arena of research The book will be of high interest to scientific and clinical researchers in the subject of aging and age related disease and to physicians and pharmaceutical company scientists since it gives insights into the latest strategies biomarkers and targets involved in the mechanism of action of curcumin to promote healthy aging It will also provide important information on disease mechanisms related to age related disorders as each chapter will be presented in the context of specific chronic diseases Employment Safety and Health Guide ,1992 Includes original text of the Occupational safety and health act of 1970 Database Systems For Advanced Applications '93 - Proceedings Of The 3rd International Symposium On Database Systems For Advanced Applications S C Moon,H Ikeda,1993-03-18 This proceedings volume contains 52 technical research papers on multidatabases distributed DB multimedia DB object oriented DB real time DB temporal DB deductive DB and intelligent user interface Some industrial papers are also included *Biohacker's Handbook* Olli Sovijärvi, M.D.,Teemu Arina,Jaakko Halmetoja, Biohacking is all about optimizing human performance health and well being by utilizing science technology and a deep understanding of human physiology and nutrition Biohacker s Handbook is the most anticipated health wellness book of the decade The authors Olli Sovijärvi M D technology expert Teemu Arina and nutrition expert Jaakko Halmetoja upgrade the fundamentals of a balanced life sleep nutrition exercise work and the mind What is the 20 % that will lead to 80 % of the results when it comes to optimal well being Biohacker s Handbook takes the latest research into holistic health and turns it into practical and applicable information in a visual and readable format With more than 1500 references and hundreds of images Biohacker s Handbook is the missing manual of the human body and an essential addition to the library work desk kitchen gym suitcase and bedroom of anyone with a genuine interest in optimal human performance health and wellbeing Pages 572 in printed version References 1634 Edition 1st Authors Olli Sovijärvi Teemu Arina Jaakko Halmetoja Visual design layout and illustrations Lotta Viitaniemi **IATSS Research** ,1999 Civil Engineering Education ,1979 *Springer Handbook of Science and Technology Indicators* Wolfgang Glänzel,Henk F.
