The Seven Strategies of Hand to Hand Combat Ernest Emerson, 2015-04-08

This is not a book about techniques Black Belt Hall of Famer and Tier One tactical instructor Ernest Emerson opens the doors to the previously hidden Strategies Tactics and Mentality of the world's deadliest warriors giving you the tools to upgrade your training in any system into a truly effective program of combat ready skills Emerson's genius is in being able to break down human conflict combat into its most basic component parts and then explain them in terms that make perfect sense Then in turn he gives you the ability to train and supercharge those components individually so that when they are reassembled the result is an Abrams tank powered by jet engines But if you're looking for a book on how to block a punch you won't find it here This is about giving you the means to create a supercharged capability to take what you already know to the elite level ready for actual combat The difference between tier one operators and the rest of us is not that they know more techniques or possess secret skills They know the same things as we do They just know how to do them much better Emerson takes you into his classroom to teach you the real secrets the forbidden knowledge of the warrior elite America's Special Operations and Black Ops Units The problem with training for real world hand to hand combat skills is that almost all martial arts are over 200 years removed from actual combat and have been softened up or sporterized to be palatable to the general public The difference between conventional training and combatives training is defined by two simple words intent and intensity Each needs the other to be maximally effective and conventional martial arts lack both Without truly knowing if something will actually work in live combat how can an instructor teach combat skills to someone whose life may depend on those skills If you are ever in a situation where you're face to face with pure evil and you're not both physically and mentally prepared for violent deadly combat then that is the day you will likely die The author shows that you must be able to bring violence of action against the bad guy to such a degree that it doesn't just counter his attack but destroys him for attempting to do you harm You will learn how to evaluate your current training against the criteria of the perfect technique to judge everything you do as to whether it will work in real combat or not and avoid wasting your valuable time doing things that are of no value Learning and applying principles and concepts outlined in this book will give you the confidence you need to never again wonder Will this really work or Can I do this You will learn that the true mastery of fighting skills is not just based on confidence in the techniques but ultimately in the confidence you have in yourself Some of the subjects covered in detail include 1 The principles strategies and tactics of combat 2 The physical physiological and psychological effects of

combat on the human body and how to use them to your advantage³ The 3 Laws of Combat and the 6 Instinctual Triggers⁴ The high art of preemptive self defense⁵ The importance of being able to distinguish between capability and capacity

Combative fighting skills is not a martial art It is hard intense painful training along with the development of the Warrior Mindset Without that mindset and the iron will to win you are only using half of your power The other half is in the mind You will learn how important it is to never neglect one for the other Ernest Emerson has worked with members of the Naval Special Warfare Community Navy SEALs for over 25 years He carried a DOD top secret clearance for 15 years He is the owner of Emerson Knives Inc and the Black Shamrock Combat Academy in Los Angeles California **Martial Arts for the Special Forces** Chris McNab,2003 Describes the difference between other martial arts and military unarmed combat discussing techniques taught to special forces units defenses in case of an attack and skills for power punching and chokeholds *Survive* Michael Wright,2025-02-28 A guide to self protection martial arts and combat fitness which will be of appeal to all those interested in the military law enforcement and security An explanation of how combat training is utilised in these professions by an author with many years of experience in all of these fields Extreme Unarmed Combat Martin J Dougherty,2021-02 **Armed Combat** Martin J Dougherty,2013-12-16 Written in easy to understand steps and accompanied with more than 150 black and white illustrations Armed Combat guides the reader through everything they need to know to overcome an armed aggressor in any hand to hand combat situation **Get Tough!** W. E. Fairbairn,2017-07-05 Get Tough is the fully illustrated manual of lethal unarmed combat methods taught to British and US Special Forces in the Second World War by Major W E Fairbairn co inventor of the Sykes Fairbairn knife and senior instructor to WW2 s Special Forces **The Mammoth Book Of Special Forces Training** Jon E. Lewis,2015-01-22 In this encyclopedic book Lewis provides insights into the origins training tactics weapons and achievements of special forces and special mission units throughout the world focusing particularly on US and UK forces He also looks at the codes that that bind the members of these elite units together He reveals training secrets in everything from wilderness survival to hand to hand combat In doing so he draws extensively on biographies autobiographies training manuals interviews and press coverage of key operations The elite forces covered include The British Army s Special Air Service SAS established in 1950 which has served as a model for the special forces of many countries Its counter terrorist wing famously took part in the hostage rescue during the siege of the Iranian Embassy in London in 1980 The Parachute Regiment the airborne infantry element of 16 Air Assault Brigade which spearheads the British Army s rapid intervention capability It is closely linked to United Kingdom Special Forces The US Navy s SEALs Sea Air Land Teams trained to conduct special operations in any environment but uniquely specialised and equipped to operate from and in the sea Together with speedboat operating Naval Special Warfare Combatant Craft Crewmen they form the operational arm of the Naval Special Warfare community the Navy component of the US Special Operations Command Their special operations include neutralizing enemy forces

reconnaissance counter terrorism famously in the killing of Osama bin Laden and training allies The US Army's Delta Force The Special Mission Unit 1st Special Forces Operational Detachment Delta 1st SFOD D known simply as Delta Force the Army component of Joint Special Operations Command Its role is counter terrorism direct action and national intervention operations though it has the capability to conduct many different kinds of clandestine missions including hostage rescues and raids The US Army Rangers a light infantry combat formation under the US Army Special Operation Command The Green Berets motto to free the oppressed trained in languages culture diplomacy psychological warfare and disinformation Russia's Spetsnaz whose crack anti terrorist commandos ended the Moscow theatre siege and who have a reputation for being among the world's toughest and most ruthless soldiers Spetsnaz units saw extensive action in Afghanistan and Chechnya often operating far behind enemy lines Israeli Special Forces especially Shayetet 13 Flotilla 13 whose motto in common with the rest of the Israeli military is Never again a reference to the Holocaust They are particularly adept at the specifically Israeli martial art Krav Maga which they dub Jew jitsu
