Hosea,Carali McCall,2020-09-03 What is performance drawing When does a drawing turn into a performance Is the act of drawing in itself a performative process whether a viewer is present or not Through conversation interviews and essays the authors illuminate these questions and what it might mean to perform and what it might mean to draw in a diverse and expressive contemporary practice since 1945 The term performance drawing first appeared in the subtitle of Catherine de Zegher's *Drawing Papers 20 Performance Drawings* in particular with reference to Alison Knowles and Elena del Rivero In this book it is used as a trope and a thread of thinking to describe a process dedicated to broadening the field of drawing through resourceful practices and cross disciplinary influence Featuring a wide range of international artists this book presents pioneering practitioners alongside current and emerging artists The combination of experiences and disciplines in the expanded field has established a vibrant art movement that has been progressively burgeoning in the last few years The

Introduction contextualises the background and identifies contemporary approaches to performance drawing As a way to embrace the different voices and various lenses in producing this book the authors combine individual perspectives and critical methodology in the five chapters While embedded in ephemerality and immediacy the themes encompass body and energy time and motion light and space imagined and observed demonstrating how drawing can act as a performative tool The dynamic interaction leads to a collective understanding of the term performance drawing and addresses the key developments and future directions of this applied drawing process

Battista in this exciting new art history Domesticity the body its traces and sexuality have become prominent themes in contemporary feminist practice but where did these preoccupations begin and how did they come to signify a particular type of art Kathy Battista's re engagement with the founding generation of female practitioners centres on 1970s London as the cultural hub from which a new art practice arose Emphasising the importance of artists including Bobby Baker Anne Bean Catherine Elwes Rose English Alexis Hunter Tina Keane Hannah O Shea Kate Walker and Silvia Ziranek and examining works such as Mary Kelly's Post Partum Document Judy Clark's 1973 exhibition Issues Carolee Schneemann's Meat Joy and Cosey Fanni Tutti's Prostitution shown in 1976 Kathy Battista investigates some of the most controversial and provocative art from the era This book not only deals with the famous art events but includes analysis of lesser known exhibitions and performances and explains why so much feminist art has been both marginalised in art history and grossly under represented in institutional archives and collections

Sculpture and the Garden Patrick Eyres, Fiona Russell, 2006 Although the integration of sculpture in gardens is part of a long tradition dating back at least to antiquity the sculptures themselves are often overlooked both in the history of art and in the history of the garden This collection of essays considers the changing relationship between sculpture and gardens over the last three centuries focusing on four British archetypes the Georgian landscape garden the Victorian urban park the outdoor spaces of twentieth century modernism and the late twentieth century sculpture park Through a series of case studies exploring the contemporaneous audiences of gardens the book uncovers the social political and gendered messages revealed by sculpture's placement and suggests that the garden can itself be read as a sculptural landscape
