

# HOW TO CHOOSE SHOES THAT FIT

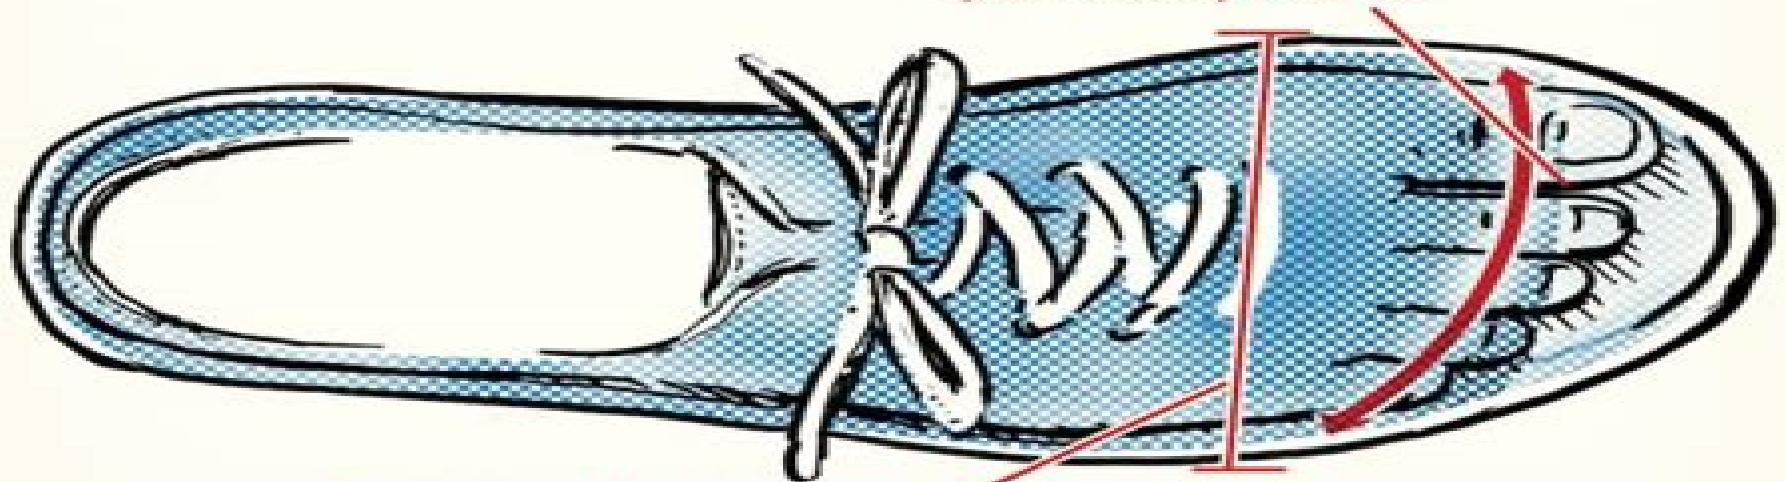

Heel of shoe should snugly cup the heel of foot, without being too tight or too loose. Avoid excess slippage.

While standing, make sure there is a half to full thumb's width ( $1/2 - 1"$ ) between your longest toe and the end of the shoe; for workout shoes, lean to a full thumb, as feet expand during exercise.

Toes should be able to spread naturally in toe box.

Widest part of foot should roughly align with widest part of shoe.

*The Green Beret Bushcrafting Guide* Brian Morris, 2023-03-21 Become an expert at finding food water shelter security establishing communication maintaining your health navigating and making fire Many survival and emergency preparedness experts today use the pyramid approach to survival prioritization putting food water shelter and security in the largest block at the base of the pyramid and then community sustainability and higher needs in smaller brackets at the top of the pyramid Decorated combat veteran Brian M Morris takes a different and linear approach to survival using an eight pillar system developed over decades of serving as a Green Beret in the US Army Special Forces The foundation for Morris's methodology is KISS which stands for keep it simple

stupid an acronym widely used by the military to remind soldiers that the best solutions are often the simplest In his eight pillar system it is up to the survivor to assess their situation and then choose the pillar that is needed most to survive the situation at hand Much like a rifle pop up target range where a shooter is expected to hit the closer more dangerous 50 meter target first before engaging the 300 meter target the survivor needs to choose the pillar that is most urgent and necessary to save their life under the circumstances

*A Father's Collage* Dr John P Glaser, PH.D.,2005-04 My children have filled a scrapbook of memories Memories that are very similar to perhaps duplicates of the memories held by millions of fathers Undistinguished common memories that yet are priceless These memories are largely fond ones Conversations attempts to change hair color soccer games skiing and holidays But not all of the memories bring smiles Arguments over curfews sickness and futile efforts to fix something wrong Some memories are of anger concern and worry These memories form a collage A collage that has no obvious coherence or obvious messages These memories do not portray complex lives gripping struggles nobility of purpose or exotic settings But a fellow father looking at my collage might recognize my memories as much like his own And he and I looking at our almost identical collages would smile at our art and share our good fortune that our collages have so many pictures
