**Literature and Utopian Politics in Seventeenth-Century England** Robert Appelbaum, 2002-04-04. Hundreds of writers in the English speaking world of the seventeenth century imagined alternative ideal societies. Sometimes they did so by exploring fanciful territories such as the world in the moon or the nations of the Antipodes but sometimes they composed serious disquisitions about the here and now proposing how England or its nascent colonies could be conceived of as an Oceana or a New Jerusalem. This book provides a comprehensive view of the operations of the utopian imagination in literature from 1603 to the 1660s. Appealing to social theorists, literary critics and political and cultural historians, this volume revises prevailing notions of the languages of hope and social dreaming in the making of British modernity during a century of political and intellectual upheaval.

**Literature** Robert DiYanni, 2001-07. This literary breadth is supplemented by extensive coverage of writing about literature, making DiYanni an excellent resource for literature instructors who want a full featured anthology.

*A Philosophy of Visual Metaphor in Contemporary Art* Mark Staff Brandl, 2023-02-23. Metaphor, which allows us to talk about things by comparing them to other things, is one of the most ubiquitous and adaptable features of language and thought. It allows us to clarify meaning yet also evaluate and transform the ways we think, create and act. While we are alert to metaphor in spoken or written texts, it has within the visual arts been critically overlooked. Taking into consideration how metaphors are inventively embodied in the formal, technical and stylistic aspects of visual artworks, Mark Staff Brandl shows how extensively artists rely on creative metaphor within their work. Exploring the work of a broad variety of artists including Dawoud Bey, Dan Ramirez, Ga lle Villedary, Raoul Dea, Sonya Clark, Titus Kaphar, Charles Boetschi and more, he argues that metaphors are the

foundation of visual thought are chiefly determined by bodily and environmental experiences and are embodied in artistic form Visual artistic creation is philosophical thought By grounding these arguments in the work of philosophers and cultural theorists including No 1 Carroll Hans Georg Gadamer and George Lakoff Brandl shows how important metaphor is to understanding contemporary art A Philosophy of Visual Metaphor in Contemporary Art takes a neglected feature of the visual arts and shows us what a vital role it plays within them Bridging theory and practice and drawing upon a capacious array of examples this book is essential reading for art historians and practitioners as well as analytic philosophers working in aesthetics and meaning

**Language, Literature and Education in Multicultural Societies** Kenneth Harrow, Kizitus Mpoche, 2009-10-02 This book presents a vivid overview of linguistic literary and educational issues in a multicultural context from various perspectives. These range from large scale surveys to specific analyses on aspects of language literature and education. Contributions are very original and based on a common denominator Multiculturalism. Despite the numerical dominance of contributions from Cameroon one of the most multilingual countries in the world this book brings together views from specialists in the different domains from several parts of the world Africa Europe and the United States of America. These contributions exhibit not theoretical issues that underpin current academic debates in linguistic and literary research but also empirical and interesting data that can further be exploited to other ends. Critical views on literature and postcolonialism the fears of language death with the advent of globalisation and the spread of English language the educational significance or influence of the internet the wealth of Cameroon African literature and the education of the Cameroonian African child and theoretical issues in language and literary education are themes handled here in an accessible manner to readers without previous knowledge of language science literature and education.

**Books and Readers in Early Modern England** Jennifer Andersen, Elizabeth Sauer, 2012-07-28 Books and Readers in Early Modern England examines readers reading and publication practices from the Renaissance to the Restoration. The essays draw on an array of documentary evidence from library catalogs prefaces title pages and dedications marginalia commonplace books and letters to ink paper and bindings to explore individual reading habits and experiences in a period of religious dissent political instability and cultural transformation. Chapters in the volume cover oral scribal and print cultures examining the emergence of the public spheres of reading practices. Contributors who include Christopher Grose Ann Hughes David Scott Kastan Kathleen Lynch William Sherman and Peter Stallybrass investigate interactions among publishers texts authors and audience. They discuss the continuity of the written word and habits of mind in the world of print the formation and differentiation of readerships and the increasing influence of public opinion. The work demonstrates that early modern publications appeared in a wide variety of forms from periodical literature to polemical pamphlets and reflected the radical transformations occurring at the time in the dissemination of knowledge through the written word. These forms were far more ephemeral and far more widely available than modern stereotypes of writing from this period suggest.

Early Modern Authorship and the Editorial Tradition Aleida Auld, 2023-12-12 This volume adds a new dimension to authorship studies by linking the editorial tradition to the transformative reception of early modern authors and their works across time. Aleida Auld argues that the editorial tradition provides privileged access to the reception of early modern literature informing our understanding of certain reconfigurations and sometimes helping to produce them between their time and our own. At stake are reconfigurations of oeuvre and authorship the relationship between the author and work the relationship between authors and the author's own

role in establishing an editorial tradition Ultimately this study recognizes that the editorial tradition is a stabilizing force while asserting that it may also be a source of strange and provocative reconceptions of early modern authors and their works in the present day Scholars and students of early modern literature will benefit from this approach to editing as a form of reception that encompasses all the editorial decisions that are necessary to put forth a text

**The Making of the Modern Artist** Ernest L. Veyu, 2012-12-19 The Making of the Modern Artist Stephen Dedalus and Will Brangwen examines two fictional artists by James Joyce and D H Lawrence in A Portrait of the Artist as a Young Man and D H Lawrence s The Rainbow respectively It brings together Joyce and Lawrence in their common concern with the modern artist and modern art Taking the two major artist characters of the two works this study establishes that Joyce and Lawrence irrespective of major background educational artistic and philosophical differences converge on the person character artistic vision and working methods of the modern artist This study makes little effort at looking at these fictional artists as alter egos of Joyce and Lawrence it treats them as modern artists in their own right It attempts to give them somewhat a critical right of existence of their own
