**Global Political Economy** Jean Marie Chenou, Ralf J. Leiteritz, Carolina Urrego-Sandoval, 2025-03-15 Taking first the profound transformations underway in the global political economy this pathbreaking new text redefines how we understand trade finance money and labour In this new problem based approach the core concerns of the global economy are joined by key topics spanning energy to development inequalities to illicit economies reflecting the fluid and dynamic nature of contemporary GPE scholarship The book addresses four major transformations shaping the global political economy today

the questioning of the liberal international order the rise of the Anthropocene the technological advancements of the fourth industrial revolution and the increasing significance of identity politics These transformations are explored through a comprehensive framework that integrates diverse theoretical and methodological approaches ensuring a nuanced understanding of real world problems Each chapter tackles key problems and global issues from global energy dependency and rising inequality to the commodification of personal data and platform economies The book also emphasises the need for a truly global perspective integrating lenses concepts voices and ideas from scholarship all round the world This inclusive approach broadens understanding and reflects the complexity and diversity of the global landscape By adopting the stance of hybrid GPE scholars the authors bridge the gap between different geographical and intellectual traditions offering a rich and varied examination of contemporary GPE Global Political Economy is an essential resource providing a fresh and relevant perspective on the field It fosters critical discussions and debates encouraging readers to rethink entrenched beliefs and engage with the ever evolving landscape of global political economy

Transnational Mobility and Externalization of EU Borders Robel Afeworki Abay, Petra Danková, Tanja Kleibl, Nikos Xypolytas, 2024-01-22 Transnational Mobility and Externalization of EU Borders Social Work Migration Management and Resistance addresses the topics of social work and international migration with specific focus on the consequences of EU border externalization policies The increasingly authoritarian character of EU border management raises a number of issues related to the role of social work within a context that is heavily charged both ideologically and politically After theoretically and historically contextualizing externalization with explicit attention to neo colonial genealogies of the current migration regimes this book examines the complex inter relations of social workers with key actors namely mobile people policy makers or funders Particular attention is paid to the socio economic and political impacts of the global Covid 19 pandemic on social work with variously categorized people moving across borders or immobilized incamps Finally the book explores how social workers and refugees resist violent migration controls and increasing criminalization of cross border movements This volume brings together contributions located in the so called countries of origin and transit targeted by EU externalization interventions as well as EU countries in which social workers deal with the effects of border externalization and internalization

The Psychology of Social Influence Gordon Sammut, Martin W. Bauer, 2021-01-07 This volume brings together the full range of modalities of social influence from crowding leadership and norm formation to resistance and mass mediation to set out a challenge and response cyclone model The authors use real world examples to ground this model and review each modality of social influence in depth A periodic table of social influence is constructed that characterises and compares exercises of influence in practical terms The wider implications of social influence are considered such as how each exercise of a single modality stimulates responses from other modalities and how any everyday process is likely to arise from a mix of influences The book demonstrates that different modalities of social influence are tactics that defend question and develop common sense over

time and offers advice to those studying in political and social movements social change and management **Digital Frontiers - Healthcare, Education, and Society in the Metaverse Era** Yu Chen,Erik Blasch,2024-12-11 Step into the Metaverse and explore the digital frontiers reshaping our world Digital Frontiers Healthcare Education and Society in the Metaverse Era explores how the merging of AI XR blockchain and Web3 technologies is changing every aspect of our lives In a world where physical and virtual realities increasingly converge this book provides essential insights into the technologies that are fueling this transformation and their major social implications Learn how new digital therapeutics are changing the way we deliver personalized noninvasive medical treatments and discover how VR environments stimulate learning and enhance procedures and diagnostics The new reimagining of culture and education through fashion learning and human AI interactions via digital twins virtual agents and machine learning is bridging geographical boundaries by manifesting globally connected citizens or communities Underlying these changes are some of the foundational technologies building a truly open community metaverse Layered views of reality are possible due to AR and data integration and new models of social and economic utility are made in the material world due to blockchains and decentralized systems Whether you work in tech or healthcare education or policy whether you are one of many who should be concerned about the near future or just curious to know how it all unfolds this book will give you a clear view of what opportunities and obstacles lie ahead Science Societies Sarah R. Davies,2024-11-26 What role do science and technology play in society What is the nature of expert knowledge What is science s relation to democracy This introduction to science technology and society answers these questions and more by exploring contemporary research on topics such as expertise activism science policy and innovation It offers a comprehensive resource for considering the place that science and technology have in contemporary societies and the roles that they can and should play Accessible to a non specialist audience it draws on a rich range of cases and examples from nuclear activism in India to content moderation in Kenya Framing science as always social and society as always shaped by science and technology it asks what worlds do we want science and technology to bring into being Queering Families Tamara Lea Spira,2025-04-08 Envisioning queer futures where we lovingly wager everything for the world s children the planet and all living beings against all odds and in increasingly precarious times Queering Families traces the shifting dominant meanings of queer family from the late twentieth century to today With this book Tamara Lea Spira highlights the growing embrace of normative family structures by LGBTQ movements calling into question how many queers once deemed unfit to parent have become contradictory agents within the US empire s racial and colonial agendas Simultaneously Queering Families celebrates the rich history of queer reproductive justice from the radical movements of the 1970s through the present led by Black decolonial and queer of color feminist activists Ultimately Spira argues that queering reproductive justice impels us to build communities of care to cherish and uphold the lives of those who defying normativity s violent stranglehold are deemed to be unworthy of life She issues the call to lovingly wager a future for the world s children the
