Queer Ear Gavin S.K. Lee,2023-10-17 Through provisional idiosyncratic and non normative listening practices Queer Ear Remaking Music Theory counters music theory s continuing tendencies towards rationality unity unilinearity teleology and logical certainty In this volume editor Gavin S K Lee brings together a diverse group of music theorists who issue queer challenges to both music theory and musicology and show that queerness is integral to music theoretical practice These investigations of the queer ear and queer soundings while drawing upon a broad range of approaches are united by the repurposing of hard music theoretical apparatuses as well as soft apparatuses like narratology and cultural theory for queer ends Such repurposings contribute to the search for general principles or a theory of queering that counters mainstream music theory s proclivities instead encouraging everyone to experiment with queer ways of listening Through the lenses of queer temporality queer narratology and queer music analysis the essays examine a wide variety of artists and composers including Sun Ra Cowell Czernowin Henze Schubert and Schumann theories ranging from Schenker to queer shame disability studies and posthumanism and authors such as Edward Cone and Edward Prime Stevenson Together they rethink
