Far North Marcel Theroux, 2025-06-25 Far North is a 2009 National Book Award Finalist for Fiction My father had an expression for a thing that turned out bad He d say it had gone west But going west always sounded pretty good to me After all westwards is the path of the sun And through as much history as I know of people have moved west to settle and find freedom But our world had gone north truly gone north and just how far north I was beginning to learn Out on the frontier of a failed state Makepeace sheriff and perhaps last citizen patrols a city s ruins salvaging books but keeping the guns in good repair Into this cold land comes shocking evidence that life might be flourishing elsewhere a refugee emerges from the vast emptiness of forest whose existence inspires Makepeace to reconnect with human society and take to the road armed with rough humor and an unlikely ration of optimism What Makepeace finds is a world unraveling stockaded villages enforcing an uncertain justice and hidden work camps laboring to harness the little understood technologies of a vanished civilization But Makepeace s journey rife with danger also leads to an unexpected redemption Far North takes the reader on a quest through an unforgettable arctic landscape from humanity s origins to its possible end Haunting spare yet stubbornly hopeful the novel is suffused with an ecstatic awareness of the world s fragility and beauty and its ability to recover from our worst trespasses

Weit im Norden Marcel Theroux, 2011-10-30 Eine atemberaubende Zukunftsvision Der Klimawandel hat die Welt radikal verändert Nur wenige Menschen haben überlebt darunter auch Makepeace Hatfield die im äußersten Norden Sibiriens inmitten von Schnee und Eis ein einsames Leben führt Als sie bei ihrer täglichen Patrouille durch das verlassene Dorf plötzlich einem Fremden begegnet gerät ihr Leben aus den Fugen Sie wird mit der Welt außerhalb ihrer eiskalten Einsamkeit konfrontiert einer Welt in der sich die Natur den Menschen untertan gemacht hat

Haruki Murakami Matthew C. Strecher, Paul L. Thomas, 2016-03-22 Japanese writer Haruki Murakami has achieved incredible popularity in his native country and world wide as well as rising critical acclaim Murakami in addition to receiving most of the major literary awards in Japan has been nominated several times for the Nobel Prize Yet his relationship with the Japanese literary community proper known as the Bundan has not been a particularly friendly one One of Murakami's central and enduring themes is a persistent warning not to suppress our fundamental desires in favor of the demands of society at large Murakami's writing over his career reveals numerous recurring motifs but his message has also evolved creating a catalogue of works that reveals Murakami to be a challenging author Many of those challenges lie in Murakami's blurring of genre as well as his rich blending of Japanese and Western mythologies and styles all while continuing to offer narratives that attract and captivate a wide range of readers Murakami is as e Kenzaburō once contended not a Japanese writer so much as a global one and as such he merits a central place in the classroom in order to confront readers and students but to be challenged as well Reading teaching and studying Murakami serves well the goal of rethinking this world It will open new lines of inquiry into what constitutes national literatures and how some authors in the era of blurred national and cultural boundaries seek now to transcend those boundaries and pursue a truly global mode of expression

Literature as Cultural Ecology Hubert Zapf, 2016-04-21 This book is available as open access through the Bloomsbury Open Access programme and is available on www.bloomsburycollections.com Drawing on the latest debates in ecocritical theory and sustainability studies *Literature as Cultural Ecology Sustainable Texts* outlines a new approach to the reading of literary texts Hubert Zapf considers the ways in which literature operates as a form of cultural ecology using language imagination and critique to challenge and transform cultural narratives of humanity's relationship to nature In this way the book demonstrates the important role that literature plays in creating a more sustainable way of life Applying this approach to works by writers such as Emily Dickinson Edgar Allan Poe Herman Melville William Faulkner Toni Morrison

Zakes Mda and Amitav Ghosh Literature as Cultural Ecology is an essential contribution to the contemporary environmental humanities *The Contemporary Post-Apocalyptic Novel* Diletta De Cristofaro, 2019-12-26 Traditional apocalyptic texts concern the advent of a better world at the end of history that will make sense of everything that happened before But what is at stake in the contemporary shift to apocalyptic narratives in which the utopian end of time is removed The Contemporary Post Apocalyptic Novel offers an innovative critical model for our cultural obsession with the end by focussing on the significance of time in the 21st century post apocalyptic novel and challenging traditional apocalyptic logic Once confined to the genre of science fiction the increasing popularity of end of the world narratives has caused apocalyptic writing to feature in the work of some of contemporary literature s most well known fiction writers Considering novels by Will Self Cormac McCarthy David Mitchell Emily St John Mandel Jeanette Winterson and others Diletta De Cristofaro frames the contemporary apocalyptic imagination as a critique of modernity s apocalyptic conception of time and history Interdisciplinary in scope the book historicises apocalyptic beliefs by exploring how relentlessly they have shaped the modern world **New Perspectives on International Comparative Literature** Cao Shunqing, Theo D haen, Liang Chang, Zhou Shu, 2022-07-25 Bringing together 17 articles by renowned scholars from around the globe this volume offers a multi dimensional view of comparative and world literature Drawing on the scope of these scholars collective intellects and insights it connects disparate research contexts to illuminate the multi dimensional views of related areas as we step into the third decade of the 21st century The book will be of particular interest to scholars working in comparative literary and cultural studies and to readers interested in the future of literary studies in a cross culturized world Climate Migration Calum Nicholson, Benoit Mayer, 2023-09-21 This book investigates the epistemological and ethical challenges faced by studies exploring the relations between climate change and human migration At the heart of the contemporary preoccupation with climate change is a concern for its societal impacts Among these its presumed effect on human migration is perhaps the most politically resonant regardless of whether that politics is oriented towards human or national security There is however a problem research on the causal link between climate change and migration has shown it to be a highly equivocal one By extension it remains unclear what if any response is required from law and policy Carefully structured to guide the reader through the issue of climate migration in a logical and rigorous manner this book is the first to bring together key critiques caveats and cautions in order to systematically examine the challenges facing law policy and research on the topic At a time in which both the effects of climate change and the causes of migration are of great public and political interest and in which these interests are often fraught with sentiment and freighted with politics the book brings dispassionately critical perspectives to bear on a topic that desperately needs it **Mobile Lives** Anthony Elliott, John Urry, 2010-06-10 This book sets out with remarkable clarity and insight the contradictions of mobile societies and of mobile lives Such mobilities are full of dilemmas for individuals for corporations for states and in a way for the globe itself Mobile Lives is an up to date provocatively written

book which examines social processes that are on the edge

Interdisciplinary Essays on Environment and Culture Luigi Manca, Jean-Marie Kauth, 2015-12-24 This is a collection of essays about the media the environment and the whole of humanity at the brink of extinction As the demands of overpopulation and of an unsustainable consumer economy dry up existing natural resources and destroy vital ecosystems that we need to survive the corporate controlled media saturate worldwide audiences with a barrage of hypnotic images and narratives to stimulate over consumption and to distract us from the consequences of rampant consumerism while remaining silent about the systematic destruction of the environment and our future Academicians from the across the sciences the social sciences the arts and the humanities engage in an interdisciplinary discussion informed by a vision of an interconnected humanity and focused on the role of the media in forging public discourse Contributors to the collection argue that today s media are failing humanity Rather than providing pictures of reality on which the world s citizens can act the corporate controlled media are widely used as instruments of commercial and political propaganda creating an immense web of images and narratives that their creators know to be not true fabrications designed to sell to manipulate in a sense to enslave worldwide audiences At the core of the discussion in this book is a utopian vision of one unified humanity billions of people whose destinies and dreams are imbricated and interdependent and who share the same world the same habitats It is a vision of a world that cherishes

diversity but is also united a world where our differences are no longer a cause for conflict and where separate countries or separate ethnic or religious communities no longer have to compete or wage war to exploit available resources As extensions of humans the media can be instruments of salvation instead of destruction liberation instead of oppression But first we must recognize the challenges we face *Ethnobiology for the Future* Gary Paul Nabhan,2016-04-15 The book centers on a call to define/redefine the field of ethnobiology and the need for doing so It points a major way forward for ethnobiology toward engagement with people and communities that are saving ecosystems and lifestyles through reviving traditional agricultural items and techniques and integrating them into the contemporary world Provided by publisher **Systems from Hell** David A. Rochefort,2024-12-01 This book approaches contemporary fiction as a medium for policy advocacy one whose narrative devices both link it to and distinguish it from other forms of public discourse Using the framework of political agenda setting David A Rochefort analyzes the rhetorical function of problem definition played by literary works when they document and characterize social issues while sounding the call for systemic reform Focusing on a group of noteworthy realist novels by American authors over the past twenty years this study maintains that fictional narrative is a potentially influential instrument of empathic policy argument The book closes by examining the agenda setting dynamics through which a social problem novel can contribute to the process of policy change *New Perspectives on Dystopian Fiction in Literature and Other Media* Saija Isomaa,Jyrki Korpua,Jouni Teittinen,2020-08-27 This collection of essays examines various forms of dystopian fiction in literature television and digital games It frames the timely trend of dystopian fiction as a thematic field that accommodates several genres from societal dystopia to apocalyptic narratives and climate fiction many of them examining the hazards of science and technology to human societies and the ecosystem These are genres of the Anthropocene par excellence capturing the dilemmas of the human condition in the current increasingly precarious epoch The essays offer new interpretations of classical and contemporary works including the canonised prose of Orwell Atwood and Cormac McCarthy modern pop culture classics like *Battlestar Galactica* *Fallout* and *Hunger Games* and the work of Johanna Sinisalo a pioneer of Finnish speculative fiction From Thomas Pynchon to *Watership Down* the volume's multifaceted approach offers fresh perspectives to those already familiar with existing research but it is no less accessible for newcomers to the ever expanding field of dystopian studies **Art's Realism in the Post-Truth Era** Amanda Boetzkes,Maryse Ouellet,2024-05-31 Arguing for the necessity of taking art's contribution to contemporary realism seriously this edited collection intervenes on contemporary debates about realism by demonstrating that the arts do not simply illustrate philosophical theories The significance of art's realism in times characterised by the normalisation of fake manipulated and distorted representations of reality can only be fully understood by attending to the ways that the arts mediate visualise and even shape reality Each chapter features a different approach to realism and its aesthetic dimensions not only in the visual arts but also in sound art film scientific imaging and literature Climate Change and Society John Urry,2011-06-20 This is

the first book to develop a proper sociology of climate change and will be an excellent companion to Tony Giddens The Politics of Climate Change **The Rowan Tree** Robert Works Fuller,2013-01-12 Rowan Ellway is a young college president Easter Blue an impassioned student leader Upon graduation she takes a fellowship to Africa and they lose touch When decades later they meet again they discover that their prior bond was but a rehearsal for the world stage THE ROWAN TREE reaches from the tumultuous 1960s into humanity s future encompassing the worlds of politics sport ballet presidential leadership and world governance An international cast of characters personifies the catalytic role of love in political change Replete with illicit loves quixotic quests and inextinguishable hope THE ROWAN TREE foretells a dignitarian world much as the story of King Arthur and the round table sowed the seeds of democracy The Sorcerer of Pyongyang Marcel Theroux,2023-10-10 When the discovery of The Dungeon Master s Guide draws him into a colorful new world ten year old Jun su with the help of an English speaking teacher deciphers the rules of this famous role playing game which sweeps him away from the harsh reality of a famine stricken North Korea
