**Der Übermuslim** Fethi Benslama, 2017-03-01 Warum radikalisiert sich Jugendliche die weder aus besonders schwierigen Verhältnissen stammen noch als ungewöhnlich religiös bekannt waren innerhalb kürzester Zeit zu gewaltbereiten Islamisten und wollen fortan in Syrien oder hierzulande in den Dschihad ziehen Warum gelingt es islamischen Fundamentalisten weltweit so leicht moderate Muslime unter Druck zu setzen weil sie nicht islamisch genug seien Fethi Benslama der 15 Jahre in der Pariser Vorstadt mit radikalisierten Jugendlichen gearbeitet hat zeigt in seinem wegweisenden Essay dass weder theologische noch soziologische Erklärungsansätze ausreichen sondern psychologisch gefragt werden muss welchen seelischen Gewinn die Einzelnen aus der islamistischen Radikalisierung ziehen Nur wenn wir begreifen welcher bis zur Tötung von anderen und sich selbst treibende Genuss die Täter motiviert lassen sich Gegenmittel finden Benslama demonstriert eindrucksvoll die Aufklärungskraft der Psychoanalyse und zeigt wie sich in den muslimischen Gemeinschaften das Ideal des Übermuslims etablieren konnte dem man bis zur völligen Aufopferung nacheifern muss Er zeigt aber auch warum die bloße Deradikalisierung die zugrunde liegenden Probleme nicht beseitigen wird und schlägt andere Lösungsansätze zur Überwindung des Übermuslims vor Überraschenderweise gibt ihm dafür gerade der Blick auf den von vielen als gescheitert betrachteten Arabischen Frühling Anlass zu einer optimistischen Perspektive

**Islamist Radicalisation in Europe** Daniela Pisoiu, 2012-01-25 This book examines the Islamist radicalisation process in Europe developing a new theoretical model based on an empirical study of the evolution of Islamist radicals in their social environment The approach of this book is to examine how and under what conditions people choose to radicalise It focuses on the experience of radicalisation from the perspective of those who have undergone it The study is based on trial and court material along with an extensive number of interviews collected from many different European countries and this biographical approach is used to address individuals and the details of their social environment Overall the explanatory framework departs from the existing deterministic paradigm with grievances as causes also present in some psychological models and argues that radicalisation is a process much like occupational choice a rational choice made with social and ideational significance It addresses critically the assumption that because the result of

the radicalisation process could be seen as abnormal the cause of it might be of a similar nature Parallels are drawn with other forms of extremism and European counter radicalisation policies are considered critically This book will be of great interest to students of terrorism studies and political violence political Islam social movements European politics and IR security studies in general *Perspectives on Countering Extremism* Shashi Jayakumar, 2023-02-09 The study of violent extremism has seen a great deal of academic and practitioner focus on the processes of radicalization and strategies to counter and de radicalize extremists Comparatively little has been written on the subject of Diversion early upstream interventions aimed at deflecting individuals from a pathway of radicalization This volume addresses this gap in scholarship by analyzing the strategies being deployed worldwide aimed at diverting or deflecting individuals and communities from the path of radicalization Disengagement which is often necessary when one has already progressed past the at risk stage is also addressed given that social workers counselors and other practitioners do not necessarily find the distinction between the two a critical issue in practice What matters is which upstream approaches work and what shows promise amongst individuals and communities Case studies range across the Global North and South presented by both academics and practitioners Contributions address approaches that have proven useful strategies which should be given deeper scrutiny before being employed and what should be avoided
