Communication between pilots and ATCs is one crucial element that affects flight safety. As a result, with the significant increase of international air service, ICAO decided English as the mandatory language of international civil aviation in the 1950s. According to the English requirement of ICAO, an English proficiency test was required in China. However, pilots' lack of English background and the imperfect English air ground communication curriculum in China cause a dilemma. To solve this problem, a simulating video based English air ground communication course with an effective language teaching approach CLT was developed in the project.
