## **Force 2025 And Beyond Arcic:**

*Military Review* ,2015      **Transformation of the Indian Armed Forces 2025** A K Lal,2012-03-01 Transformation should lie at the heart of our new approach to defense The development of transformational capabilities processes and force structures should be given strategic focus to meet the principal challenges under our defense strategy India is already ceased with the necessity of transformation albeit without any documented national security guidelines or operating instructions which are legislated or have the validation of at least the Cabinet Committee on Security CCS In other words the first step would be to create a draft security strategy based on many assumptions like the foreign policy or the cumulative emerging threat scenario as appreciated by the Defence Intelligence Agency DIA This well researched book is a result of the project allotted by the USI under the Field Marshal K M Cariappa chair The book is therefore more as an idea or a theoretical construct basically to bring in more clarity to the various options available for this great transformation of the Indian military The author has deliberated upon various landmarks of transformation milestones achieved so far by the three services and given recommendations to further build upon ongoing modernization plan and shift to a higher plane of transformational activities      **Professional Journal of the United States Army** ,2015      Global Strategic Developments The Emirates Center for Strategic Studies and Research,2012-06-19 The world today faces numerous challenges including the ongoing fallout from the financial crisis and varied and diverse examples of violence and conflict across the globe Combined with the many changes affecting both the regional and global balance of power such as the apparent decline of the United States the growing influence of the East and the evolving role of international organizations these challenges have led some to question how global power will be distributed in the coming two decades All nations are exposed to the influences of international policy and ongoing developments in the world order Understanding these developments as well as the associated implications for international security and stability enables national policy makers to identify and capitalize on strategic opportunities A future strategic vision for the Gulf must encompass a range of issues including internal regional and global aspects The states of the region must develop stronger domestic resilience by binding citizens to the state in a way that reduces its vulnerability to malign transnational forces Gulf states will wish to further deepen their links to the countries of the East particularly states such as South Korea Japan Australia China and India all of whom have different ways that they can contribute to regional stability They may also wish to be exporters rather than merely importers of security contributing to international missions authorized by the UN and other international bodies States that have this sense of international social responsibility become more vital to the global system as a whole The GCC states will also wish to revive and increase the flexibility of their regional security apparatus perhaps to engage Iran Iraq and Yemen and gain more control of immediate regional dynamics Driving regional security in this way will partly insulate the GCC countries from the diplomatic initiatives of others that may not be consistent with GCC interests Furthermore the GCC states will seek to build stronger

institutional links among themselves deepening the co operation and contacts between the civil servants of the member countries so that diplomacy between them is derived from disciplined organizational procedures Just as each state has to develop its domestic resilience so through institution building should the GCC strengthen its corporate resilience Overall the Gulf states need to develop an increasingly global outlook even as they deal with internal challenges They must find more ways to engage productively in the broader security dialogue of the region with outside actors from Europe North America and Asia In the age of globalization the states of the region need to be very mindful of the place good governance has in ensuring that the rest of international society is able to effectively engage with the Gulf states

**HyperNeutrosophic Set and Forest HyperNeutrosophic Set with Practical Applications in Agriculture** Takaaki Fujita, Florentin Smarandache, The Neutrosophic Set provides a flexible mathematical framework for handling uncertainty by incorporating three distinct membership functions truth indeterminacy and falsity 50 In response to the growing complexity of real world problems advanced extensions such as the Hyperneutrosophic Set and the Superhyperneutrosophic Set have been introduced These extensions offer a higher dimensional approach to modeling uncertainty and can be formally defined in 33 34 35 37 36 51 32 Since the Hyperneutrosophic Set and the SuperHyperneutrosophic Set have only been recently defined there remains a lack of concrete examples demonstrating their applicability This paper aims to bridge this gap by exploring practical examples of these concepts in the field of agriculture Additionally we introduce two novel extensions the Forest Hyperneutrosophic Set and the Forest SuperHyperneutrosophic Set which further generalize the existing models to accommodate hierarchical and interconnected uncertainty structures in complex systems

Some Types of HyperNeutrosophic Set (4): Cubic, Trapezoidal, q-Rung Orthopair, Overset, Underset, and Offset Takaaki Fujita, Florentin Smarandache , This paper builds upon the foundational work presented in 38 40 The Neutrosophic Set provides a comprehensive mathematical framework for managing uncertainty defined by three membership functions truth indeterminacy and falsity Recent advancements have introduced extensions such as the Hyperneutrosophic Set and the SuperHyperneutrosophic Set which are specifically designed to address increasingly complex and multidimensional problems The formal definitions of these sets are available in 30 In this paper we extend the Neutrosophic Cubic Set Trapezoidal Neutrosophic Set q Rung Orthopair Neutrosophic Set Neutrosophic Overset Neutrosophic Underset and Neutrosophic Offset using the frameworks of the Hyperneutrosophic Set and the SuperHyperneutrosophic Set Furthermore we briefly examine their properties and potential applications

Soft Power and Diplomatic Strategies in Asia and the Middle East Zreik, Mohamad, 2024-04-01 In a world witnessing the transformative rise of China the intricate dynamics of its soft power diplomacy have become a focal point of global attention As geopolitical landscapes shift the need to understand how China crafts its foreign policy especially through the strategic use of soft power becomes imperative Soft Power and Diplomatic Strategies in Asia and the Middle East is a crucial resource to unraveling these complexities The book addresses the post COVID 19 changes in China s soft power application providing

an in depth comparative analysis of its diplomatic endeavors in the Middle East and East Asia By exploring cultural exchanges economic collaborations and religious engagements the book offers nuanced insights into China s strategies making it an indispensable tool for academics policymakers diplomats and those intrigued by contemporary geopolitics This book aims to dissect the multifaceted approaches China employs to achieve its diplomatic objectives From cultural initiatives to economic partnerships and religious engagements the book unravels the adaptability and complexity of China s foreign policy mechanisms Its primary objective is to provide a comparative framework for studying China s soft power diplomacy filling a notable gap in existing scholarship The interdisciplinary approach ensures rich diverse analyses fostering dialogues across international relations Asian studies and political science By offering new theories methodologies and empirical data the book not only challenges existing notions but also sparks further academic inquiry into the strategic use of soft power in foreign policy

**Chinese Policy and Presence in the Arctic** Timo Koivurova,Sanna Kopra,2020-03-17 In the book Chinese Policy and Presence in the Arctic Koivurova and Kopra editors offer a comprehensive account of China s evolving interests policies and strategies in the Arctic region Despite its lack of geography north of the Arctic Circle China s presence in the High North is expected to grow in the coming years which in turn is likely to speed up globalization in the region This book brings together experts on China and the Arctic each chapter contributing to a detailed overview of China s diplomatic economic environmental scientific and strategic presence in the Arctic and its influence on regional affairs The book is of interest to students scholars and those dealing with China s foreign policy and Arctic affairs

**A Fractured North** Erich Kasten,Igor Krupnik,Gail Fondahl,2025-03-03 The volumes of the Fractured North series address research collaborations in Siberia and the Russian North that are now at risk or frozen and how partnerships might be restored under the evolving political situation The first two volumes explored ethical and moral dilemmas of continuing collaborative studies in the fractured North and the ramifications of ceasing such collaborations While many scholars have pivoted their attention to other regions others have maintained their focus on the Russian North striving to sustain the circumpolar approach of the past decades Contributions in this third volume deal with how we might move forward despite the many fissures in our field Moving forward includes a variety of approaches adopting new er methodologies for carrying out studies from afar e g netography establishing new connection hubs at Western institutions maintaining already established collaborations via joint meetings on neutral territory and more We anticipate that these volumes together will provide a record of the reflections concerns anguish and inspirations of over fifty social scientists who chose the Russian North as their locus of research We also dearly hope that it will serve as a historic account of a period of fracture that will before long heal

Arctic: New Political Economy Alexander Bezgodov,2023-11-15 Alexander Bezgodov a well known researcher of macroeconomics and social issues is devoted to the Arctic one sixth of the planet s surface which for many has remained an afterthought But in recent years the Arctic has changed dramatically with the global transformation of the climate turning deserted ice expanses

into fairly safe land hospitable for a short time In two or three decades it may become comfortable With property in the Arctic having yet to be formalized the stakes are high World powers located thousands of miles from the Arctic Ocean are claiming their rights to a share of the common heritage of humanity In this book the author provides a comprehensive analysis of how economically successful states have sought to develop the planet s resources in the neutral spaces of the Arctic Ocean Other topics include the history of polar expeditions and discoveries the start of permafrost territories by pioneers the cultivation of relations with indigenous peoples the evolution of international Arctic law and the developing map of territorial and neutral waters Arctic highlights the stakes and why there will be plenty to argue about while also proposing solutions that could prevent a crisis

National Security Implications of Climate Change for U.S. Naval Forces National Research Council, Division on Engineering and Physical Sciences, Naval Studies Board, Committee on National Security Implications of Climate Change for U.S. Naval Forces, 2011-06-26 In response to the Chief of Naval Operations CNO the National Research Council appointed a committee operating under the auspices of the Naval Studies Board to study the national security implications of climate change for U S naval forces In conducting this study the committee found that even the most moderate current trends in climate if continued will present new national security challenges for the U S Navy Marine Corps and Coast Guard While the timing degree and consequences of future climate change impacts remain uncertain many changes are already underway in regions around the world such as in the Arctic and call for action by U S naval leadership in response The terms of reference TOR directed that the study be based on Intergovernmental Panel on Climate Change IPCC scenarios and other peer reviewed assessment Therefore the committee did not address the science of climate change or challenge the scenarios on which the committee s findings and recommendations are based National Security Implications of Climate Change for U S Naval Forces addresses both the near and long term implications for U S naval forces in each of the four areas of the TOR and provides corresponding findings and recommendations This report and its conclusions are organized around six discussion areas all presented within the context of a changing climate

Economy,2021-10-25 An economic and military superpower with 20 percent of the world s population China has the wherewithal to transform the international system Xi Jinping s bold calls for China to lead in the reform of the global governance system suggest that he has just such an ambition And his iron grip on power in the wake of the 2022 Party Congress suggests that he now has the mandate But how does he plan to realize it And what does it mean for the rest of the world In this compelling book Elizabeth Economy reveals China s ambitious new strategy to reclaim the country s past glory and reshape the geostrategic landscape in dramatic new ways Xi s vision is one of Chinese centrality on the global stage in which the mainland has realized its sovereignty claims over Hong Kong Taiwan and the South China sea deepened its global political economic and security reach through its grand scale Belt and Road Initiative and used its leadership in the United Nations and other institutions to align international norms and values particularly around human rights with those of China It is a world radically different from that of today The international community needs to understand and respond to the great risks and and potential opportunities of presented by this transformative vision Also available as an audiobook

Heliophysics Science and the Moon ,2007 The Security of Iceland and the Arctic 2030 Robert P.

Wheelersburg,2022-03-16 This book outlines a recommended Icelandic security force as part of the country s defence against sub strategic threats such as human trafficking by criminals or border incursions by other states It also tests the recommended security force through the development of four different hypothetical scenarios in the year 2030 designed to show the force s successful implementation Melting of the Arctic ice pack and the opening of the Transpolar Sea Route around 2025 could lead to an increase in traffic into the North Atlantic from the Pacific and vice versa That movement is predicted to bring a massive influx of tourists business interests and government entities into the region Along with

legitimate uses of the new shipping lanes the opportunity for terrorists criminals and rogue states to travel in and around the Arctic could lead to increased smuggling violence and sovereignty disputes i e seizing uninhabited terrain A review of Iceland s current security policies indicates that the parliament provided the legal framework to create the recommended security force with the 2016 Parliamentary Resolution establishing a National Security Policy for Iceland Many scholars and government officials believe that the Iceland public would not support a security force culturally Yet recent surveys reveal that many Icelanders could accept a security force to protect them from sub strategic threats especially if the increased security could be attained without the intervention of foreign military forces The recommended security force utilizes Icelandic search and rescue volunteers and Reservists to increase the protection of the country funded by its full NATO contribution

**Logistics and Power** Susan Zieger,2025-09-09 From supply chains to surveillance how logistics drives modern power and its consequences Movement is the lifeblood of capital even more so than growth If goods people and information don t flow then profits don t either Ensuring that laborers shipping containers media commercially valuable data and much else are in the right place at the right time demands a subtle choreography Enter logistics Susan Zieger argues that logistics is the foundation of power in our time Blending detailed historical research with real life stories that crystallize the human and ecological consequences of supply chains Logistics and Power shows how the pursuit of efficient movement has come to organize economies while disordering societies and selves Logistics emerges as the key to consumerism and the experience of work It justifies corporate and police surveillance illuminates patterns of migration and exploitation and explains why the oceans are clotted with plastic It is in the sphere of logistics that capitalist motives are most dramatically in tension with planetary needs A headfirst encounter with the obscure forces subordinating all goals below those of capital Logistics and Power points the way to an alternative a mindful and politically attentive kind of movement compatible with human thriving
