maximization and increasing the shareholder value depend to a large measure on efficient and effective financial management of the company or firm. With this end in view, Professor Bhabatosh Banerjee, drawing from his expertise and his rich and long years of experience, gives a masterly analysis of the fundamental principles of financial management along with their applications. While retaining the distinguishing features of the previous edition, the book is now a much more comprehensive one on Financial Management. Significant changes have been incorporated into the chapters relating to cost of capital, analysis of leverages, capital structure theories and planning, capital budgeting, decision making, working capital management, changes in financial position, accounting ratios and financial statement analysis, mergers and acquisitions and corporate governance for further value addition of the book. The book is logically organized into five parts: Part I Basic Concepts; Part II Financial and Dividend Decisions; Part III Investing in Long term and Short term Assets; Part IV Performance Analysis and Measurement; Part V Contemporary Topics, to enable the students to understand the concepts with suitable cases chronologically and more effortlessly. This book is primarily intended as a text for the students of commerce and management courses. It will also be highly useful for those appearing in CA and ICWAI examinations. In addition, the text will benefit practising finance and accounting professionals, corporate managers and participants in management development programs. **KEY FEATURES** Includes numerous illustrations, worked out problems and exercises covering recent questions in university and professional examinations. Gives corporate practices in professional management wherever found necessary. This will enable the students to acquaint themselves with real life situations. Provides Case Studies in a few complex chapters to enhance the analytical and presentation skills of the students in a classroom setting. **Entrepreneurship and**

Management in Forestry and Wood Processing Franz Schmithüsen, Bastian Kaiser, Albin Schmidhauser, Stephan Mellinghoff, Karoline Perchthaler, Alfred Kammerhofer, 2015-05-08. Forestry has long been in a rather favourable position in offering a valuable raw material source in high demand. However, with rapidly changing end user demands and cost competitiveness within the forest and wood chain as a whole, the industry is needing to adapt. Explaining entrepreneurial action as part of a chain of comprehensive value added processes leads to a new perception of forest production and wood processing. This book applies the main concepts of modern managerial science to the world of forestry and is the perfect book for students studying forestry and wood processing as well as entrepreneurs and managers within the sector. Topics are covered from an entrepreneurial perspective and include perspectives from accounting, finance, economics, supply chain management, marketing and strategy. *Management Accounting* Alicia Gazely, Michael Lambert, 2006-04-27. The SAGE Course Companion on Management Accounting is an accessible introduction to the subject that will help readers extend their understanding of key concepts and enhance their thinking skills in line with course requirements. It provides support on how to revise for exams, how to present calculations and how to prepare for and write assessed pieces. Readers are encouraged not only to think like a management accountant but also to think about the subject critically. *Employee Benefits Design*
