EBOOK: Financial Accounting Theory: European Edition DEEGAN, CRAIG, 2011-01-16 The second edition of Craig Deegan and Jeffrey Unerman's market leading text presents the various theories of financial accounting through a balanced and dynamic approach. Students are given all the tools to engage with these theories and are encouraged to critically evaluate and challenge them. Clearly written and user friendly, this new edition provides comprehensive coverage of internationally developed accounting theories from a European perspective. **Islamic Financial Markets (Rle Banking and Finance)** Rodney Wilson, 2012 The first comparative survey of the experiences of Islamic banking across the Muslim world covering Turkey, Egypt, Kuwait, Jordan, Sudan, Iran, Pakistan, and Saudi Arabia. *FINANCIAL ACCOUNTING* KEN & CARSON TROTMAN (ELIZABETH & GIBBINS, MICHAEL.), 2018 **Thirty Years of Islamic Banking** M. Iqbal, P. Molyneux, 2016-01-13 This text explains how Islamic banking works and what it offers as an alternative model of financial intermediation. Important questions addressed include: Why Islamic banking started and where it is going? Who are the main players at present and whom it will attract in future? What are its strengths and weaknesses? Will Islamic banks survive in highly competitive and globalized financial markets? What are their prospects and potentials? How does the relative performance and efficiency of Islamic banks compare to conventional banks? *Islam and the Everyday World* Sohrab Behdad, Farhad Nomani, 2006-11-22 This is a new examination of how Shari'a law affects public policy both theoretically and in practice across a wide range of public policy areas including, for example, human rights and family law. The process by which public policy is decided through elections, debates, political processes, and political discourse has an additional dimension in the Islamic world. This is because Shari'a, a divine law, has a great deal to say on many mundane matters of everyday life and must be taken into account in matters of public policy. In addition, matters are complicated further by the fact that there are differing interpretations of the Shari'a and how it should be applied to contemporary social issues. Written by leading experts in their field, this is the first comprehensive single volume analysis of Islam and public policy in the English language and offers further understanding of Islam and its wider social and political implications.
