Making Medicines in Africa Maureen Mackintosh, Geoffrey Banda, Watu Wamae, Paula Tibandebage, 2016-02-03 This book is open access under a CC BY license The importance of the pharmaceutical industry in Sub Saharan Africa its claim to policy priority is rooted in the vast unmet health needs of the sub continent Making Medicines in Africa is a collective endeavour by a group of contributors with a strong African and more broadly Southern presence to find ways to link technological development investment and industrial growth in pharmaceuticals to improve access to essential good quality medicines as part of moving towards universal access to competent health care in Africa The authors aim to shift the emphasis in international debate and initiatives towards sustained Africa based and African led initiatives to tackle this huge challenge Without the technological industrial intellectual organisational and research related capabilities associated with competent pharmaceutical production and without policies that pull the industrial sectors towards serving local health needs the African sub continent cannot generate the resources to tackle its populations needs and demands Research for this book has been selected as one of the 20 best examples of the impact of UK research on development See <http://www.ukcds.org.uk> the global impact of uk research for further details

Multi-Criteria Decision-Making Techniques in Waste Management Suchismita Satapathy, Debesh Mishra, Prasenjit Chatterjee, 2021-09-30 This book addresses the problem of waste management by using multi criteria decision making MCDM methods The authors discuss how to apply MCDM a complex decision making tool that involves both quantitative and qualitative factors to develop strategies for effective waste management using various optimization models to rank alternatives while also incorporating the concerns and needs of multiple stakeholders to find the most optimal decisions for various types of wastes Typically there does not exist a single optimal solution to waste problems with help of MCDM far better solutions can often be found and utilized to facilitate sustainable waste management techniques in various industries This book provides unique effective and quick decision making strategies for waste management With the ever increasing population and continuing human development the problem of managing waste becomes increasingly essential and this volume helps lead the way to finding sustainable solutions

The Aräqe Dilemma Yeraswork Admassie, Ezana Amdework, 2010 Aräqe is a traditional home distilled beverage that is made from an assortment of cereals such as wheat sorghum and maize and has a high level of ethanol A ubiquitous feature of present day Ethiopian society with the exception of the predominantly Muslim communities Aräqe is more than the alcoholic drink of choice for people living in rural and small towns Thanks to its qualities of divisibility long shelf life portability and high unit value it is also an important commodity that is produced by traded between and consumed in most rural and urban areas of the country Its negative effects notwithstanding it is a major object of exchange that ties cities to their rural hinterlands and with one another thus becoming an important component of the social fabric of the society It is an important social fact that cannot be dismissed as a fringe phenomenon But in spite of the substantial

amount of ar qe that is distilled traded and consumed within the informal sector and the important place it holds in the socioeconomic fabric of the society no comprehensive study has to date been undertaken on its interrelated aspects at a national level The general objective of this study is to assess and document the processes origin introduction and spread patterns arenas manners trends currently evolving forms and future directions as well as impacts on environment economy social health and security of the production marketing and consumption of the homemade liquor ar qe with the ultimate aim of indicating how and to what extent these factors contribute to economic development stagnation and social cohesion disruption in rural Ethiopia in particular as well as the country at large

World Health Organization,2024-05-03 Noncommunicable diseases NCDs and mental health conditions have a profound impact on societies communities and individuals around the world Their risk factors and determinants extend beyond the traditional health sector Addressing this complex challenge necessitates interventions that reach beyond the boundaries of public health and requires a coherent coordinated approach across all relevant governmental sectors Understanding documenting and sharing how governments implement multisectoral actions are essential to overcome these challenges and identify the capacity needs for coherent and sustainable responses to NCDs and mental health In 2019 WHO Member States requested the Director General to provide a consolidated report to the World Health Assembly analysing approaches to multisectoral action for NCD prevention and control including addressing social economic and environmental determinants of health This compendium report is the Secretariat s response to that request and features case studies from countries across WHO s six regions *Abortion law reform in Africa: A reproductive health and rights perspective* Charles Ngwena,Ebenezer Durojaye,Satang Nabaneh, Nkatha Murungi,2025-05-26 Despite notable legal and policy advancements in post colonial Africa unsafe abortion remains a pressing public health concern Abortion Law Reform in Africa A Reproductive Health and Rights Perspective spearheaded by the late Professor Charles Ngwena offers a vital and timely examination of this ongoing challenge This collection of essays moves beyond a mere analysis of legal texts unpacking the deep rooted barriers that continue to limit access to safe abortion services in Africa The authors critically assess the real world impact of current reforms highlighting their shortcomings in providing accessible rights based care They offer concrete strategies aimed at strengthening legal and policy frameworks to promote reproductive autonomy improve reproductive health outcomes and advance gender equality for women and girls confronting unwanted pregnancies Through a compelling exploration of how restrictive laws push countless women towards unsafe procedures often with fatal or debilitating consequences the volume underscores that meaningful reform demands more than legislative change It calls for addressing the broader social economic and cultural determinants that restrict access to abortion care By advocating for the

implementation of progressive instruments such as the African Women s Protocol this book stands as a powerful call to action for African policymakers and stakeholders to facilitate access to safe abortion care services It urges the adoption of comprehensive and transformative measures that can truly secure women s rights to safe abortion and prevent needless suffering and death

Ramana,Chala Tesfaye Chekagn,2016-04-25 As a low income country Ethiopia has made impressive progress in improving health outcomes This report examines how Ethiopia s Health Extension Program HEP has contributed to the country s move toward Universal Health Coverage UHC and to shed light on how other countries may learn from Ethiopia s experiences of HEP when designing their own path to UHC HEP is one of the government s UHC strategies introduced in a context of limited resources and low coverage of essential health services The key aspects of the program include the capacity building and mobilization of more than 30 000 Health Extension Workers HEWs targeting more than 12 million model families and the mobilization of health development army to support the community based health system Using the HEP UHC conceptual model and data from Demographic and Health Surveys

the study examines how the HEP has contributed to the country's move toward UHC. During the period that the HEP has been implemented, the country has experienced significant improvements in many dimensions in terms of socioeconomic, psychological, behavioral, and biological dimensions of the beneficiaries and in terms of the coverage of health care services. The study finds an accelerated rate of improvements among the rural, less educated, and the poor population, which is leading to an overall reduction in equity gaps and improvements in the equity indicators, including the concentration indices that suggest a more equitable distribution of resources and health outcomes. The HEP in Ethiopia has demonstrated that an institutionalized community approach is effective in helping a country make progress toward UHC. The elements of success in the HEP include the emphasis on community mobilization, which identifies community priorities, engages and empowers community members, and supports their ability to solve local problems. The other aspect of HEP is the emphasis on institutionalization of the activities, which addresses the sustainability of community programs through a high level of political commitment and effective coordination of national policies and leveraging of support from partners. These findings may offer useful lessons for other low-income countries facing similar challenges in developing and implementing a sustainable UHC strategy.

Ethiopian Yearbook of International Law 2017 Zera Yihdego, Melaku Gebaye Desta, Martha Belete Hailu, Fikremarkos Merso, 2018-08-02. The second volume of EtYIL brings together a number of articles and other contributions that collectively take EtYIL's original mission of helping rebalance the narrative of international law another step forward. Like the first volume, this book presents scholarly contributions on cutting-edge issues of international law that are of particular interest to Ethiopia and its sub-region as well as Africa and developing countries more generally. The major issues tackled include the interplay between national and international law in the promotion and regulation of foreign direct investment in Ethiopia, the regulatory framework for the exploitation and development of petroleum resources, and relevant arbitral jurisprudence in the field, the role of international law in ensuring the equitable sharing of transboundary resources such as the waters of the River Nile or in the delimitation of the continental shelf in the region, the efforts to establish the Continental Free Trade Area in Africa, and the lessons that can be learnt from prior experiments. Africa's policy towards the International Criminal Court and the feasibility of alternative means of serving justice in the case of grave crimes, and the UN's peace-keeping operations in their North-South context. The issues addressed in the various contributions are mostly at the heart of live political, diplomatic, and judicial activities today and as such promise to shape the future of international law in the region and beyond. This volume not only takes a significant step further towards EtYIL's mission but also enriches it with fresh insights from perspectives that are not common in international law scholarship to this day.

Evaluation of FAO's country programme in Ethiopia 2014-2019 Food and Agriculture Organization of the United Nations, 2020-10-06. Ethiopia is a low-income country, and agriculture is the mainstay of the economy, accounting for 34 percent of GDP and 70 percent of total employment share. Ethiopia remains one of the world's poorest countries despite the significant progress achieved in

reducing poverty and hunger The Government of Ethiopia through its Growth and Transformation Plan GTP II has consistently prioritized the transformation of agriculture from low input subsistence oriented production systems to a fast growing intensive and commercially oriented sector to support the country s aspirations to become a middle income country by 2025 FAO s Country Programme Framework 2016 2020 was formulated based on the GTP II Over the evaluation period 2014 2019 FAO exceeded the resource mobilization targets Overall FAO s programme displays several imbalances and disconnects specifically between development activities and emergency response The evaluation calls for FAO to adopt a more cohesive programmatic approach and continue to consolidate its fragmented programme In the context of the Government s plans for agricultural transformation the evaluation also recommends that FAO support an economically sound value chain and market based approach to agricultural development while upholding normative values of inclusiveness and ecological sustainability
