Beyond Training Jack C. Richards, 1998-02-13 *Beyond Training* examines the nature of second language teacher development and how teachers' practices are influenced by their beliefs and principles. It seeks to move discussion of language teacher development beyond the level of training which reflects a technical view of specific teaching practices. Instead, it takes a more holistic approach to teacher development built on the notion of the teacher as critical and reflective thinker. The argument pursued throughout is that teacher education needs to engage teachers not merely in the mastery of techniques but in an exploration of the knowledge, beliefs, and attitudes that underlie their teaching practices.

Contexts of Competence Margie Berns, 2013-06-29 The introduction of communicative competence as the goal of second and foreign language teaching has led to recognition of the role of context in language learning and use. As communicative competence is defined by the social and cultural contexts in which it is used, no single communicative competence can serve as the goal and model for all learners. This recognition has had an impact on program design and materials development. One significant change is that the choice of a teaching method is no longer the primary concern. Instead, the first step for the program designer is becoming familiar with the social and cultural features of the context of the language being taught. This includes a consideration of the uses speakers make of the language, their reasons for using it, and their attitudes toward it.

Contexts of Competence: Social and Cultural Considerations in Communicative Language Teaching explores the relationship between context and competence from a theoretical and practical perspective. Its audience is applied linguists in general and language teaching practitioners in particular. The overall aim of its five chapters is to provide a framework for consideration of various contexts of language learning and use and to guide the implementation and development of models of communicative language teaching that are responsive to the context-specific needs of learners. *Forum*, 1980

Authenticity across Languages and Cultures Leo Will, Wolfgang Stadler, Irma Eloff, 2022-11-10 This volume centres around concepts of personal and cultural authenticity as they play out in various contexts of foreign language teaching and learning worldwide. The chapters cover a wide range of contexts and disciplines, including both theoretical and empirical work. Together, they comprise both a rigorous analysis of authenticity in language teaching and a step away from notions of native speakerism and cultural essentialism with which it is often associated. Written by a group of scholars working across several continents, the chapters offer diverse perspectives regarding the role language plays in processes of personal growth, learning, development, self-actualisation, and power dynamics. The book

addresses the theoretical and philosophical nature of authenticity while remaining grounded in the teaching and learning of languages with authenticity viewed as a practical concern that guides our actions and beliefs The book will be of interest to scholars researchers and students of authenticity as well as foreign language teachers interested in the theoretical underpinnings of their practice **ÖABT - İNGİLİZCE ÖĞRETMENLİĞİ - Konu Anlatımı** Komisyon, ELT & LINGUISTICS DICTIONARY - İngiliz Dili Öğretimi ve Dilbilim Sözlüğü Hidayet Tuncay,2013-01-01 The ELT Comprehensive almost 2321 entries covering all integrated skills in English language training linguistic terms closely related to ELT EFL ELL ESL ESOL FLL FLT TEFL TESL Informative it provides bibliographies for most of the entries and a wide range of cross referencing for more conceptual headwords Referential it gives a hand to the ELT professionals to understand the concepts more specifically used in ELT literature with the original definitions from the prolific writers in the ELT world
