## **Foundations Of Western Civilization Ii A History Of The Modern Western World The Great Courses:**

**The Christian Roots of Individualism** Maureen P. Heath, 2019-11-28 The modern West has made the focus on individuality individual freedom and self identity central to its self definition and these concepts have been crucially shaped by Christianity This book surveys how the birth of the Christian worldview affected the evolution of individualism in Western culture as a cultural meme Applying a biological metaphor and Richard Dawkins definition of a meme this work argues the advent of individualism was not a sudden innovation of the Renaissance or the Enlightenment but a long evolution with characteristic traits This evolution can be mapped using profiles of individuals in different historical eras who contributed to the modern notion of individualism Utilizing excerpts from original works from Augustine to Nietzsche a compelling narrative arises from the slow but steady evolution of the modern self The central argument is that Christianity with its characteristic inwardness was fundamental in the development of a sense of self as it affirmed the importance of the everyday man and everyday life

**History of Western Civilization II** Pauline Relyea Anderson, Eugene Newton Anderson, 1957 *The Elephant in the Brain* Kevin Simler, Robin Hanson, 2018 Human beings are primates and primates are political animals Our brains therefore are designed not just to hunt and gather but also to help us get ahead socially often via deception and self deception But while we may be self interested schemers we benefit by pretending otherwise The less we know about our own ugly motives the better and thus we don't like to talk or even think about the extent of our selfishness This is the elephant in the brain Such an introspective taboo makes it hard for us to think clearly about our nature and the explanations for our behavior The aim of this book then is to confront our hidden motives directly to track down the darker unexamined corners of our psyches and blast them with floodlights Then once everything is clearly visible we can work to better understand ourselves Why do we laugh Why are artists sexy Why do we brag about travel Why do we prefer to speak rather than listen Our unconscious motives drive more than just our private behavior they also infect our venerated social institutions such as Art School Charity Medicine Politics and Religion In fact these institutions are in many ways designed to accommodate our hidden motives to serve covert agendas alongside their official ones The existence of big hidden motives can upend the usual political debates leading one to question the legitimacy of these social institutions and of standard policies designed to favor or discourage them You won't see yourself or the world the same after confronting the elephant in the brain *The Economist*, 2007

Today many people are considering nontraditional paths to achieving success How to Build a Nontraditional Career Path Embracing Economic Disruption explains what such a career path looks like and details the benefits and challenges of pursuing this option Author Ron Elsdon identifies the types of individuals who will likely find nontraditional careers attractive and examines critical strategic issues thereby enabling the reader to assess whether and how such a path might fit their personality life goals and career objectives The information presented will benefit those considering something different at their entry to the workforce individuals in middle or later career stages re assessing their direction people re engaging with a career at an encore stage or those whose previous career paths have been disrupted by an external event such as job loss

**Revolution and Constitutionalism in Britain and the U.S.** David A. J. Richards, 2023-10-02 In Revolution and Constitutionalism in Britain and the U S Burke and Madison and Their Contemporary Legacies David A J Richards offers an investigative comparison of two central figures in late eighteenth century constitutionalism Edmund Burke and James Madison at a time when two great constitutional experiments were in play the Constitution of the Glorious Revolution of 1688 and the U S Constitution of 1787 Richards assesses how much as liberal Lockean constitutionalists Burke and Madison shared and yet differed regarding violent revolution offering three pathbreaking and original contributions about Burke s importance First the book defends Burke as a central figure in the development and understanding of liberal constitutionalism second it explores the psychology that led to his liberal voice including Burke s own long term loving relationship to another man and third it shows how Burke s understanding of the political psychology of the violence of political religions is an enduring contribution to understanding fascist threats to political liberalism from the eighteenth century onwards including the contemporary constitutional crises in the U S and U K deriving from populist movements Mixing thorough research with personal experiences this book will be an invaluable resource to scholars of political science and theory constitutional law history political psychology and LGBTQ issues *Foundations of Western Civilization II: A History of the Modern Western World* , The Great Chain of Being assumed an ordered hierarchical universe in which humans like angels animals plants and even stones were placed in a particular rank by God As Europe emerges from the Middle Ages that concept is challenged and strained by forces in politics society religion and culture **Annapolis, the United States Naval Academy Catalog** United States Naval Academy, 1978 **Foundations of Western Civilization II: A History of the Modern Western World** , The consequences of the first Industrial Revolution do more to create today s world than any other development studied in this course But its innovations have a dark side that draws multiple responses from European intellectuals which we examine in the next three lectures *The Nation* , 2007 **Catalogue** United States Naval Academy, 1978 Out Here Down Under E. A. Judge, 2023-04-24 Out Here Down Under is a collection of documents and papers illuminating the development and character of ancient history as a discipline in the Antipodes It considers especially the distinctive and extraordinarily popular program championed by E A Judge of studying classical and biblical corpora

together under one discipline with an emphasis on the interpretation of documentary sources In twenty chapters this volume considers such issues as the relationship between British and Antipodean scholarship the story and legacy of Antipodean scholars of the ancient world the nature and ideology of ancient history programs at schools and universities especially in NSW and at Macquarie the interaction between biblical and classical disciplines and the function of history in contemporary Australia These texts mostly written by Judge himself throughout his career appear here with new introductory notes outlining their historical significance for the discipline and Judge s own practice Information Relative to the Appointment and Admission of Cadets to the United States Military Academy, West Point, N.Y.
