The FSL Yocto Project Community BSP (found at [freescale.github.io](https://github.com/freescale)) is a development community outside of Freescal providing support for i.MX boards in the Yocto Project environment. Freescal i.MX joined the Yocto Project community providing a release based on the Yocto Project framework. Information specific to FSL community BSP use can be found on the community web page. This document is an extension of the community BSP documentation.
