My Child "The Quick Fix?" C.S. Harrison, 2013-08-07. Children are sponges. They soak up all that the world has to offer, both good and bad. In a world flooded with instant fun, instant wrong, and lightning speed access, author C.S. Harrison has taken an unbiased approach to sort through practical methods for parents and educators for tools leading to successful child development. Throughout the text, Harrison places a mirror in the face of the reader. This mirror challenges them to look at the realities of life, change their perspective, and support their children in becoming responsible and respectable adults while maintaining their individuality. My Child replaces expert with active learner because the more we learn, the more we grow. The focus is not to be the perfect parent or educator but to create awareness on how to become a better example, one day at a time.
