## **Freedom From Government How To Reclaim Your Power:**

Freedom from Government Trent Goodbaudy, 2013-02-16 As a sensible moral human being how many times have we heard ridiculous statist arguments in support of government In this all new installment of Freedom from Government Trent Goodbaudy exposes and examines the most common statist arguments in support of government Each chapter examines a different delusional statist remark and how these sentiments are immoral irrational and usually have no basis in fact whatsoever From Without rules there would be chaos to Taxes are fees for services and The economy would collapse without government of course no statist argument would be complete without the Who would build the roads question Other topics covered The use of force divine right the social contract healthcare voting sacrificing liberty for security if you don't like it you can leave monopolies would abound without government endorsing the government by taking a benefit from it and much more This is the best weapon to absolutely destroy any statist delusion you encounter *How to Reclaim your Power* Hans Liszika, 2012-05-11 In our modern and fast moving world and lives more and more people are being left behind in the race for physical riches by those that have more than they can spend in this lifetime and thus live in conditions which are generally described as being poor or even below the poverty line and because of their longing for some luxuries and often bare necessities the poorer people become trapped into the credit card and loan systems on offer borrowing and buying often beyond their means enticed too by the many advertisements in the printed media and on TV telling them they can have everything they want now and pay for it later by borrowing up to the limits or against the equity of their homes often for goods or services they do not really need or want Others again take out mortgages to buy expensive homes beyond their means or ability to repay the often over valued and priced homes At times also through their sheer ignorance people are unaware of the consequences of their often impulsive actions and motives The reason for this in many cases is they are so involved in running their lives trying to make ends meet that they have no time to look outside the proverbial square Others again become involved in activities such as compulsive gambling drinking and smoking which consume a large proportion of their disposable income In our modern world it is also becoming more evident through the almost daily exposure of corrupt officials crooked trades people unethical businesses industries and service providers that honesty and ethics seem to have disappeared and have been replaced by the terminology me me me and profit profit profit at any cost People have to become more and more vigilant and aware of what is going on around them and protect themselves by whatever means available to them from the impact these outside influences have on their finances lives families and relationships Consequently many when realizing what is happening try to turn their lives around to break out of this vicious cycle of monetary enslavement but due to the circumstances they find themselves in very few actually can see a way out of their misery or manage to do something about it Many in their despair seek outside help by attending seminars and workshop that promise them they will change their lives and circumstances and more often than not pay enormous amounts of money to secure a seat at these

sessions and when one listens to some of the talk it sounds quite logical and believable but does it work During the session people get all fired up heading for home to turn into practice what they have learned only to find that after a few weeks their situations and conditions have not changed leaving them with a feeling of disappointment and helplessness about their situation The facts are nothing will change unless people themselves make a personal effort commit themselves too and have the desire to make the changes and to see them through A favored saying which is often used is that you must believe you already have what you desire otherwise it cannot come into your life But how can you believe in something you know and through your eyes you can see it not to be true because in the process of co creation your mind is playing a very important part and when you can only see the opposite around you day after day and when whatever you try does not work how can you believe you already have what you want or desire Consequently when this happens people become disillusioned and start to believe that they have no power over what happens in their lives and many even stop trying altogether The contents of the book are based on events situations and conditions which actually occurred in the author's life and are happening to the average working families in Australia and world wide on a daily basis in their lives Through observations made media reports and personal situations encountered Hans descri

In the beginning in the garden of Eden there were two trees the tree of knowledge and the tree of life the lord god said don t eat from the tree of knowledge One simple act of innocent disobedience for lifetimes of suffering and then death both physical and spiritual The lower being deceived the higher being the woman The woman is the well spring of life the womb If the woman is not superior then why the oppression Eve was the darling child of Eden a grand creation adored and loved by the gods so much was the creation loved that jealousy among the gods ensued the desire for possession of creation The jealousy created comparison between nature and man separation followed The Epic poems are not quarrels between men but quarrels between gods the fight to take back the grand creation the darling child of the garden of Eden Eve Self worth is everything      Congressional
