Freedom Jonathan Franzen:

Freedom Jonathan Franzen, 2010 The idyllic lives of civic minded environmentalists Patty and Walter Berglund come into question when their son moves in with aggressive Republican neighbors green lawyer Walter takes a job in the coal industry and go getter Patty becomes increasingly unstable and enraged Freiheit Jonathan Franzen, 2012 **Freedom** Jonathan Franzen, 2021-10-12 From the National Book Award winning author of The Corrections a darkly comedic novel about family

Freedom's Right Axel Honneth, 2014-03-11 Theories of justice often fixate on purely normative abstract principles unrelated to real world situations The philosopher and theorist Axel Honneth addresses this disconnect and constructs a theory of justice derived from the normative claims of Western liberal democratic societies and anchored in morally legitimate laws and institutionally established practices Honneth's paradigm which he terms a democratic ethical life draws on the spirit of Hegel's Philosophy of Right and his own theory of recognition demonstrating how concrete social spheres generate the tenets of individual freedom and a standard for what is just Using social analysis to re found a more grounded theory of justice he argues that all crucial actions in Western civilization whether in personal relationships market induced economic activities or the public forum of politics share one defining characteristic they require the realization of a particular aspect of individual freedom This fundamental truth informs the guiding principles of justice enabling a wide ranging reconsideration of its nature and application Freedom by Jonathan Franzen Samarra Hyde, 2011 Berechenbarkeit der Welt? Wolfgang Pietsch, Jörg Wernecke, Maximilian Ott, 2017-05-22 Der Sammelband untersucht Entwicklungen in der Wissenschaft die in den letzten Jahren durch moderne Informationstechnologien und die zunehmende Verfügbarkeit von Daten angestoßen wurden Aufgrund dieser neuen Ansätze werden eine Reihe von Phänomenen zum Beispiel aus den Sozial- oder den Lebenswissenschaften berechenbar die zuvor als zu komplex für eine wissenschaftliche Analyse galten Der Band versammelt Texte aus einer Vielzahl unterschiedlicher Perspektiven von der Physik über die Sozial- und Kulturwissenschaften bis hin zur Informatik Neben Beiträgen die die aktuellen Entwicklungen direkt thematisieren untersuchen andere Aufsätze zentrale Begriffe in unmittelbarem Zusammenhang wie Komplexität oder Information **Ethics and Poetics** Margrét Gunnarsdóttir Champion, Irina Rasmussen Goloubeva, 2014-04-11 Bringing together international scholars interested in the ethics of fiction this book extends the rich field of ethical literary criticism that has emerged in the last twenty years New ground is broached in that the authors explore literariness itself as constitutive of ethical intimations about the pluralistic community and about egalitarian modes of communication The epistemological point of departure is the ethical thought of modernity as filtered through Hegelian recognition as infinite social responsibility The structure of the anthology reflects this anchoring as the authors investigate modalities of recognition and social regeneration via literary language which effects the transvaluation of values of the collective imaginary and of intermediality This collection is generally concerned with the immanence of intersubjectivity in literature and with how from this immanence new modes of ethical communication are

generated The authors of Ethics and Poetics clarify how modern narratives in ways akin to yet different from political interrogations such as deconstruction psychoanalysis Marxism and gender studies refine the understanding of the recursive process of recognition thereby disclosing ethico political dimensions of the reading experience The chapters in this anthology share an interest in ethico literary responses to shifts within modernity from communal to transnational imagination All the articles explore how modalities of recognition in modern and contemporary literature deeply affect and potentially regenerate real social spaces

The Wallace Effect Marshall Boswell, 2019-01-24 The Wallace Effect explores David Foster Wallace's contested space at the forefront of 21st century American fiction Pioneering Wallace scholar Marshall Boswell does this by illuminating The Wallace Effect the aura of literary competition that Wallace routinely summoned in his fiction and non fiction and that continues to inform the reception of his work by his contemporaries A frankly combative writer Wallace openly challenged his artistic predecessors as he sought to establish himself as the leading literary figure of the post postmodern turn Boswell challenges this portrait in two ways First he examines novels by Wallace's literary patriarchs and contemporaries that introduce innovations on traditional metafiction that Wallace would later claim as his own Second he explores four novels published after Wallace's ascendancy that attempt to demythologize Wallace's persona and his literary preeminence By re situating Wallace's work in a broader and more contentious literary arena The Wallace Effect traces both the reach and the limits of Wallace's legacy

The Public Mind and the Politics of Postmillennial U.S.-American Writing Jolene Mathieson, Marius Henderson, Julia Lange, 2022-08-22 In the last twenty years how has U S American writing and the reading public responded to the complexity of an American culture resolutely situated in a larger highly politicized globalized world undergoing radical change The 20th century modes of realism and postmodernism have been succeeded by writerly practices that are that are invested in the idea of embodied authenticity and that are relatable to neorealism whether it be via outright affirmation or critical experimentation and appropriation The individual case studies mark the ways in which postmillennial U S American writing is marked by an ongoing awareness toward complexity and the entanglement of writers and the reading public with pressing political concerns and at times oppressive social and economic discursive and structural formations These contributions further attest to how narrative and structural complexity grammatical and lexical sophistication and social nuance endure as the main literary modes of confronting 21st century political life This volume is thus of interest for both the study of U S American political culture and U S American literature

Naming Neoliberalism Rodney Clapp, 2021-07-20 Neoliberalism is the reigning overarching spirit of our age It consists of a panoply of cultural political and economic practices that set marketized competition at the center of social life The model human is the entrepreneur of the self Though regnant neoliberalism likes to hide It likes people to assume that it is a natural deep structure just the way things are But in neoliberalism's train have come extreme inequality economic precariousness and a harmful distortion of both the individual and society Many people are waking up to the destructive effects of this order Anthropologists economic historians philosophers theologians and political scientists have compiled considerable literature exposing neoliberalism's pretensions and shortcomings Drawing on this work Naming Neoliberalism aims to expose the order to a wider range of readers pastors thoughtful laypersons and students Its theological base for this intervention is apocalyptic not in the sense of impending doom and gloom but in the sense of centering on Christ's life death and resurrection as itself the creation of a new and truer more hopeful and more humane order that sees the principalities and powers like neoliberalism unmasked and disarmed at the cross The book carefully lays out what neoliberalism is where it has come from its religious or theological pretensions and how it can be confronted through and in the church
