Environmental Crises in Central Asia Eric Freedman,Mark Neuzil,2015-10-23 Environmental conditions do not exist in a vacuum They are influenced by science politics history public policy culture economics public attitudes and competing priorities as well as past human decisions In the case of Central Asia such Soviet era decisions include irrigation systems and physical infrastructure that are now crumbling mine tailings that leach pollutants into soil and groundwater and abandoned factories that are physically decrepit and contaminated with toxic chemicals Environmental Crises in Central Asia highlights major environmental challenges confronting the region s former Soviet republics Kazakhstan Kyrgyzstan Tajikistan Turkmenistan and Uzbekistan They

include threats to the Caspian and Aral seas the impact of climate change on glaciers desertification deforestation destruction of habitat and biodiversity radioactive and hazardous wastes water quality and supply energy exploration and development pesticides and food security and environmental health The ramifications of these challenges cross national borders and may affect economic political and cultural relationships on a vast geographic scale At the same time the region's five governments have demonstrated little resolve to address these complex challenges This book is a valuable multi disciplinary resource for academics scholars and policymakers in environmental sciences geography political science natural resources mass communications public health and economics From Fear To Freedom Cameron Gail (author),1901

The Shield and the Cloak Gary Hart,2006-02-16 Gary Hart has long been one of the nation's foremost experts on national security combining a deep knowledge of national security policy with first hand experience of the political realities that influence how America safeguards itself and its interests In his new book Hart outlines the fundamental changes with which America must grapple when confronting the current terrorist threat a threat with no state and no geographic home base and thus no real target for the world's largest and most sophisticated military force Hart argues for a security of the commons emphasizing that the new security will require a shield for the homeland as well as a cloak of non military security including security of income community environment and energy Human Security and Human Rights under International Law Dorothy Estrada-Tanck,2016-12-01 Human security provides one of the most important protections a person centred axis of freedom from fear from want and to live with dignity It is surprising given its centrality to the human experience that its connection with human rights has not yet been explored in a truly systematic way This important new book addresses that gap in the literature by analysing whether human security might provide the tools for an expansive and integrated interpretation of international human rights The examination takes a two part approach Firstly it evaluates convergences between human security and all human rights civil political economic social and cultural and constructs an investigative framework focused on the human security human rights synergy It then goes on to explore its practical application in the thematic cores of violence against women and undocumented migrants in the law and case law of UN European Inter American and African human rights bodies It takes both a legal and interdisciplinary approach recognising that human security and its relationship with human rights cuts across disciplinary boundaries Innovative and rigorous this is an important contribution to human rights scholarship Peace Corps Volunteer ,1965
