Engaging urban research in policy making Alfaro d'Alençon, Paola, Boanada-Fuchs, Anthony, Greene, Margarita, Krishnamurthy, Sukanya, Michelutti, Enrico, Moretto, Luisa, Smit, Warren, 2023-01-27 Cities are considered engines of economic growth yet many cities in the global South struggle to increase productivity and provide significant economic opportunities for their growing populations There is a need to deepen the knowledge on the links between public goods and services and equitable economic growth and how to support such processes in policy and strategic terms locally and globally Against this background this publication developed in the collaboration between Cities Alliance's Equitable Economic Growth Cities Campaign initiative and three international research networks N AERUS AURI REDEUS_LAC The research explores how the interface between urban research and policymaking can be redefined to ensure that public goods and services foster equitable growth It reveals a richness of practices that provide a broad and lasting positive impact in terms of equitable economic growth in urban development One of them shows that collaborative efforts between academia policy makers communities and practitioners can play a crucial role in enriching these debates and processes Städte gelten als Motoren des Wirtschaftswachstums Im globalen Süden kämpfen viele Städte darum die ansässige Produktivität zu steigern um der

wachsenden Stadtbevölkerung bessere wirtschaftliche Möglichkeiten zu bieten. Deshalb ist es erforderlich, Wissen über die Verbindungen zwischen öffentlichen Gütern und Dienstleistungen und gerechtes Wirtschaftswachstum zu vertiefen, um Prozesse auf politischer und strategischer Hinsicht und lokaler und globaler Ebene zu unterstützen. Diese Publikation als Ergebnis der Zusammenarbeit zwischen Cities Alliance über das Equitable Economic Growth Cities Programm und der internationalen Forschungsnetzwerke N AERUS AURI REDEUS_LAC untersucht, wie die Schnittstelle zwischen Stadtforschung und Politikgestaltung neu definiert werden kann, so dass öffentliche Güter und Dienstleistungen gerechtes Wachstum fördern können. Die Forschung weist auf Praktiken, die einen breiten und dauerhaften positiven Einfluss auf ein gerechtes Wirtschaftswachstum in der Stadtentwicklung haben hin. Sie zeigt, wie gemeinsame Bemühungen zwischen Hochschulen, politische Akteure, Gemeinden und Praktikern eine entscheidende Rolle bei der Bereicherung dieser Debatten und den laufenden Prozessen spielen können.

Extreme Weather Events Marcia Amidon Lusted, 2017-07-15. In the wake of every killer hurricane, devastating wild fire, severe drought or once in a century flooding event, it has become commonplace for scientists, politicians and ordinary citizens to debate whether or not these severe weather events can be tied directly to climate change and global warming. The scientific consensus generally indicates that we are beginning to see upticks in extreme weather due to warming and the resulting shift in weather patterns. Certain politicians, business interests and energy executives, however, forcefully reject such connections as unproven and speculative. Where does the truth lie? This anthology collects the strongest viewpoints from across the ideological spectrum and the globe and allows readers to evaluate the arguments and evidence for themselves before forming an educated opinion.

Intention und Funktion Jens Aderhold, Olaf Kranz, 2010-11-02. Der Band versammelt Texte, die sich aus unterschiedlichen Perspektiven und anhand verschiedener Gegenstände mit den Fragen beschäftigen, wie Menschen ihr Verhalten an sozialen Systemen orientieren können und welche Bedeutung diesen Orientierungsleistungen für soziale Prozesse beizumessen ist. Renommierte Autoren aus den Bereichen der Soziologie und der Erziehungswissenschaft sowie aus Organisationstheorie, Management und Politik reflektieren das sowohl sozialtheoretisch wie auch pragmatisch hochanspruchsvolle und hochbedeutsame Problem, wie die Vermittlung zwischen einer auf Vereinfachungen beruhenden alltäglichen Orientierung und einer komplexen und komplizierten Systemik sozialer Prozesse immer wieder aufs Neue gelingt oder eben misslingt.

Foreign Direct Investment and Development Theodore Moran, 2011-04-15. This volume is the

culmination of Institute investigations on the relationship between foreign direct investment FDI and development Today more than one third of world trade takes place in the form of intrafirm transactions that is trade among the various parts of the same corporate network spread across borders and the bulk of technology is transferred within the confines of integrated international production systems This means that FDI and the operations of multinational corporations have become central to the world economy at large Nowhere is this more important than for developing countries But as Theodore Moran argues in this new volume FDI is not a single phenomenon FDI has such different impacts in the extractive sector infrastructure manufacturing and assembly and services and presents such distinctive policy challenges that each broad category of FDI must be treated on its own terms Indeed past studies that have aggregated all FDI flows together to try to find some unique relationship to host country growth or welfare have led to unreliable substantive findings and sometimes mistaken policy conclusions Moran examines each of the principal forms of FDI extracts the best from previous analysis and offers new findings and perspectives about how benefits from FDI in each sector can be enhanced and potential damages limited or eliminated
