Paarthiv from Kashmir in the early fifties of the last century He was transferred by his employer to Calcutta only after three  
months of his marriage much to the utter displeasure of the new weds then of course for the obvious reasons As ill luck  
would have it he lost his job there for whatever reasons and went penniless He was neither able to return back home nor was  
he able to sustain his living as a stranger to the city there unfamiliar to him in every respect including the ethnic language  
for communication But being an embodiment of confidence and courage he fought his way to rise from destitution to an  
enviable affluence and came to be regarded as one of the most charismatic alien celebrities of the place known otherwise for  
its orthodox civility However in the world of audacious society there he stayed alienated from his wife who had given birth to  
his son only about six months of his departure from his home The couple remained alienated and estranged from each other  
for sixteen long years Then the happy rendezvous of the family took place through a fateful coincidence brought about by  
Parijat the mentor of their son interestingly personified by the author himself The period that followed is an absorbing  
description of funny incidents superstition travels to places atonement teen age romance and a saga of highs and lows  
offered by the life in many wishful and weird ways The novel establishes the fact of life as A Spectacle of Characters Episodes  
and Scenes Scripted by Destiny which makes it a very interesting read      *Proceedings* Institution of Mechanical Engineers
