Handbook of Research on Translating Myth and Reality in Women Imagery Across Disciplines Ciolăneanu, Roxana, Marinescu, Roxana-Elisabeta, 2020-11-13 Women have been represented in art literature music and more for decades with the image of the woman changing through time and across cultures However rarely has a multidisciplinary approach been taken to examine this imagery and challenge and possibly reinterpret old women related myths and other taken for granted aspects e g grammatically inclusive gender Moreover this approach can better place the ideologies as myth creators and propagators identify and deconstruct stereotypes and prejudices and compare them across cultures with the view to spot universal vs culturally specific approaches as far as women s studies and interpretations are concerned It is important to gather these perspectives to translate and unveil new interpretations to old ideas about women and the feminine that are universally accepted as absolute impossible to challenge and invalidated truths The Handbook of Research on Translating Myth and Reality in Women Imagery Across Disciplines is a comprehensive reference book that provides an interdisciplinary and multidisciplinary perspective on the perception and reception of women across time and space It tackles various perspectives gender studies linguistic studies literature and cultural studies discourse analysis philosophy anthropology sociology etc Its main objective is to present new approaches and propose new answers to old questions related to gender inequalities stereotypes and prejudices about women and their place in the world Covering significant themes that include the ethics of embodiment myth of motherhood at the crossroad of ideologies translation of women s experiences and ideas across cultures and discourses on women s rehabilitation and dignification across centuries this book is critical for linguists professionals researchers academicians and students working in the fields of women s studies gender studies cultural studies and literature as well as other related categories such as political studies education studies philosophy and the social sciences

Sugar and Sugar Derivatives: Changing Consumer Preferences Narendra Mohan, Priyanka Singh, 2020-12-24 Sugarcane enjoys a prominent position among agro industrial crops and is commercially grown in 115 tropical and subtropical countries around the world However fluctuations in sugar prices have forced the sugarcane industry worldwide to broaden its revenue base by moving from single commodity manufacturing to a range of value added products Utilizing the by products in an innovative manner to create value added products is the new course of action for sugar producing countries For many years sugarcane was regarded as a single product crop i e only useful for producing sugar Its actual potential is now increasingly being recognised by the industry and there is a growing trend toward the manufacturing of allied products from sugarcane Therefore the focus is now on the establishment of sugar agro industry complexes processing not just sugar but a range of other products This book provides a comprehensive overview of sugarcane not only as a source of sweetening agents but also for many other uses including as a source of bio energy It also explores the trend of sugar consumption and suggests practices to curb the consumption of sugar products in order to tackle obesity and reduce public

health costs The book underscores the need to diversify sugarcane and highlights means of doing so while also addressing various innovations and technologies being developed in connection with sugar sugar derivatives and sugar industry by products for sustainable utilization in the sugar agro industry Accordingly it offers a valuable resource for professionals and R D units in the sugar industry and for students of agronomy and related fields *Transformation Of Knowledge In The Digital Age Environment Through Library* Dr. D. D. LAL, Ms. Yogita Talwar, Prof. Manoj Kumar Sinha, 2022-04-28 The proposed book emphasizes importance for a library to be flexible to changing needs and to adopt new technologies rapidly If a library of today wants to achieve success it must offer high quality service the best possible satisfaction of requirements and exhibit great flexibility in its activity In order to achieve all these goals it is necessary to attract specialists of a library to solving common problems Today people get their information online often filtered through for profit platforms If a book isn't online it's as if it doesn't exist Yet much of modern knowledge still exists only on the printed page stored in libraries Libraries haven't met this digital demand stymied by costs e-book restrictions policy risks and missing infrastructure We now have the technology and legal frameworks to transform our library system The Internet Archive working with library partners proposes bringing millions of books online through purchase or digitization starting with the books most widely held and used in libraries and classrooms With the emergence of new technologies the traditional library acting as a medium for sharing information needs an integral refinement in its processes This transformation will bring in efficiency and minimize human error in the processes with the help of smart gates material location finder and smart check out booth to automate the processes of controlling access locating items as well as the issuing returning of materials However the changeover to a smart library system might face several challenges like for instance the cost of implementing numerous high frequency RFID readers at prime locations in the library Another crucial challenge of this system will be the limitation of the equipment to achieve a more performing system Highly sophisticated equipment will be required which will largely affect the cost Smart library focuses on use of technology in a library and is designed to be very collaborative learning environment where participants are encouraged to contribute ideas and information Smart library improves traditional and non traditional library services improves users library experience and enhances opportunities for students learning Libraries are facing increased expectations from users and challenge of developing technologies including Web 2.0 e-books digitations and a problem of archiving digital content Web based technology provides users and information professionals with powerful and flexible tools for information dissemination *Exploring Digital Metrics in Academic Libraries* Thanuskodi, S., 2025-01-09 As academic libraries evolve in the digital age the need for effective data collection and analysis has become increasingly important in assessing their impact and enhancing their services Exploring digital metrics in academic libraries involves leveraging technology to track and measure a variety of activities from resource usage and user engagement to the effectiveness of digital collections and services These metrics provide valuable insights into how students faculty and

researchers interact with library resources enabling libraries to make data driven decisions that improve access support learning and optimize operations By embracing digital metrics academic libraries can not only demonstrate their value to stakeholders but also adapt to the changing needs of the academic community in an increasingly digital world Exploring Digital Metrics in Academic Libraries discusses the changes needed to transform libraries and information science education and training It explores avenues to adopt implement and utilize the emerging digital library and all other available new technologies and their applications in library systems models policies and mechanisms This book covers topics such as cloud computing higher education and smart technology and is a useful resource for computer engineers librarians data scientists academicians and researchers
