Mohamed, 2013-08-03 The First Annual Conference of Islamic Economics

Islamic Finance Organized and Edited by Dr Ghada Gomaa A Mohamed Conference venue Chestnut Conference Centre University of Toronto Toronto Ontario Canada Conference Proceeding Library Archive Canada [A Community-Based Flood Insurance Option](#) National Academies of Sciences, Engineering, and Medicine, Division on Engineering and Physical Sciences, Board on Mathematical Sciences and Their Applications, Division on Earth and Life Studies, Water Science and

Technology Board, Committee on Community-Based Flood Insurance Options, 2015-10-08 River and coastal floods are among the nation's most costly natural disasters. One component in the nation's approach to managing flood risk is availability of flood insurance policies which are offered on an individual basis primarily through the National Flood Insurance Program (NFIP). Established in 1968, the NFIP is overseen by the Federal Emergency Management Agency (FEMA) and there are about 5.4 million individual policies in the NFIP. The program has experienced a mixture of successes and persistent challenges. Successes include a large number of policy holders, the insurance of approximately 1.3 trillion of property and the fact that the large majority of policy holders (80%) pay rates that are risk based. NFIP challenges include large program debt, relatively low rates of purchase in many flood-prone areas, a host of issues regarding affordability of premiums, ensuring that premiums collected cover payouts and administrative fees, and a large number of properties that experience severe repetitive flood losses. At the request of FEMA, a Community Based Flood Insurance Option identifies a range of key issues and questions that would merit consideration and further analysis as part of a community-based flood insurance program. As the report describes, the community-based option certainly offers potential benefits such as the prospect of providing coverage for all or nearly all at-risk residents and properties in flood-prone communities. At the same time, many current challenges facing the NFIP may not necessarily be resolved by a community-based approach. This report discusses these and other prominent issues to be considered and further assessed.

The SAGE Encyclopedia of Economics and Society Frederick F. Wherry, Juliet B. Schor, Consulting Editor, 2015-09-01 Economics is the nexus and engine that runs society, affecting societal well-being, raising standards of living when economies prosper or lowering citizens' standards through class structures when economies perform poorly. Our society only has to witness the booms and busts of the past decade to see how economics profoundly affects the cores of societies around the world. From a household budget to international trade, economics ranges from the micro to the macro level. It relates to a breadth of social science disciplines that help describe the content of the proposed encyclopedia, which will explicitly approach economics through varied disciplinary lenses. Although there are encyclopedias covering economics, especially classic economic theory and history, the *SAGE Encyclopedia of Economics and Society* emphasizes the contemporary world, contemporary issues, and society. Features 4 volumes with approximately 800 signed articles ranging from 1,000 to 5,000 words each, are presented in a choice of print or electronic editions. Organized A to Z with a thematic Reader's Guide in the front matter, groups related entries. Articles conclude with References, Future Readings to guide students to the next step on their research journeys. Cross references between and

among articles combine with a thorough Index and the Reader's Guide to enhance search and browse in the electronic version. Pedagogical elements include a Chronology of Economics and Society Resource Guide and Glossary. This academic multi-author reference work will serve as a general non-technical resource for students and researchers within social science programs who seek to better understand economics through a contemporary lens.
