Ruhi Institute Persian:

The Baha'is of Iran Dominic Parviz Brookshaw, Seena B. Fazel, 2012-10-02 The Baha'i community of Iran is the country's largest non-Muslim religious minority. This collection of essays presents a comprehensive study of the social and historical development of the Baha'i community and its role in shaping modern Iran. Central to this study is the pioneering character of the Baha'i community in the late 19th and early 20th century with chapters examining the role of women in the Baha'i community, the impact of Baha'i-run schools on Iranian society, Baha'i contributions to public health initiatives and the influence of Baha'i thought and the actions of individual Baha'is on the Constitutional Revolution of 1906-1911. Conversion to the Baha'i Faith is another important theme as contributors investigate the phenomenon of large-scale conversion to the Baha'i Faith from the Jewish and Zoroastrian communities. Finally, although persecution of the Baha'is has drawn the attention of the Western media, until now few scholars working in the field of Iranian studies have chosen to write on the history or details of this persecution. Here five prominent figures in the field redress this balance and look at different aspects of this persecution including its historical background, the attitude of secular Iranians, persecution before and after the Islamic Revolution of 1979, and human rights perspectives. This book will be of interest to students and scholars of Iranian studies, Middle Eastern studies, and comparative religion, and with many chapters authored by leading academics in Iranian studies. *The Baha'is of Iran* addresses both a gap in academic literature on the Baha'i Faith and in the study of modern Iran in general.

The Baha'is of Iran, *Postrevolutionary Iran* Mehrzad Boroujerdi, Kourosh Rahimkhani, 2018-06-05 The 1979 revolution fundamentally altered Iran's political landscape as a generation of inexperienced clerics who did not hail from the ranks of the upper class and were not tainted by association with the old regime came to power. The actions and intentions of these truculent new leaders and their lay allies caused major international concern. Meanwhile, Iran's domestic and foreign policy and its nuclear program have loomed large in daily news coverage. Despite global consternation, however, our knowledge about Iran's political elite remains skeletal. Nearly four decades after the clergy became the state elite par excellence, there has been no empirical study of the recruitment, composition, and circulation of the Iranian ruling members after 1979. *Postrevolutionary Iran: A Political Handbook* provides the most comprehensive collection of data on political life in postrevolutionary Iran, including coverage of 36 national elections, more than 400 legal and outlawed political organizations, and family ties among the elite. It provides biographical sketches of more than 2,300 political personalities ranging from cabinet ministers and parliament deputies to clerical, judicial, and military leaders, much of this information previously unavailable in English. Providing a cartography of the complex structure of power in postrevolutionary Iran, this volume offers a window not only into the immediate years before and after the Iranian Revolution but also into what has happened during the last four turbulent decades. This volume and the data it contains will be invaluable to policymakers, researchers, and scholars of the Middle East alike.

Published in 1980 The events which took place in Iran during the time of original publication took the world by surprise A little reflection however will suggest that they were not inexplicable prodigies They constitute rather a manifestation albeit sudden and astonishing of a social intellectual and political crisis in the throes of which Iran has found itself The eleven studies included in this book are devoted to the examination of one or other aspect of this crisis and aim to clarify the origins and character of the crisis Muslim Feminism and Feminist Movement: Iran Abida Samiuddin,Rashida Khanam,2002

Iran's First Revolution Mangol Bayat,1991 In order to understand Iran s religious revolution of 1978 1979 it is important to look closely at an earlier revolution in the country the constitutional revolution of 1905 1909 This revolution which resulted in the establishment of Iran s first parliamentary democracy was a seminal event in the country s history The most thorough and comprehensive history of the revolution to date Bayat s book examines the uneasy alliance of clerical bureaucratic landowning and mercantile elements that won the support of the masses for a more democratic government especially the clerical dissidents that gave the revolution an aura of religious legitimacy Bayat argues that the recent religious revival in Iran is much less surprising when one sees how constitutionalists at the beginning of the century had to couch their calls for reform in the language of the Koran claiming that political reforms constituted a return to Islam **A History of the Iranian Plateau** Dr. Parviz Kambin,2011-10-26 As a student in Iran Parviz Kambin became fascinated by his countrys history In this textbook he writes from a unique perspective about his native lands complex past This history is more important than ever to understand as the East and West are increasingly at odds Divided into six parts the text covers key issues of the Iranian plateau including how Arab Islamic conquest affected the land and its people why the Pahlavi kings and limited monarchy were important how the belief system of occupants developed how art and science played an important role in society Youll also discover the surprising freedoms that women enjoyed prior to the seventh century and little known details behind the Arab Islamic conquest The achievements of Iranian poets philosophers and scientists are also a focal point Develop a keen understanding of a region of the world that is increasingly playing a role on the world stage Take a broad view of Irans political landscape and the unrest that exists there today by looking back and exploring A History of the Iranian Plateau Iran and Pakistan Alex Vatanka,2015-07-28 The respective policies of the governments of Iran and Pakistan pose serious challenges to US interests in the Middle East Asia and beyond These two regional powers with a combined population of around 300 million have been historically intertwined in various cultural religious and political ways Iran was the first country to recognise the emerging independent state of Pakistan in 1947 and the Shah of Iran was the first head of state to visit the new nation While this relationship shifted following the 1979 Iranian Revolution and tensions do exist between Sunni Pakistan and Shi i Iran there has nevertheless been a history of cooperation between the two countries in fields that are of great strategic interest to the US Afghanistan nuclear proliferation and terrorism Yet much of this history of cooperation conflict and ongoing interactions remains unexplored Alex Vatanka here presents the first comprehensive analysis of this

long standing and complex relationship
