evangelical feminism is one newly defined aspect of women's involvement in religious activism. Changes are constantly occurring within the many religious faiths and denominations in America, particularly as women strive to gain positions within religious hierarchies that previously were exclusive to men and rise within their denominations to become theologians, church leaders, and bishops. The entries examine the roles that American women have played in mainstream religious denominations, small religious sects, and non-traditional practices such as witchcraft, as well as in groups that question religious beliefs, including agnostics and atheists. A section containing primary documents gives readers a firsthand look at matters of concern to religious women and their organizations. Many of these documents are the writings of women who merit entries within the encyclopedia. Readers will gain an awareness of women's contributions to religious culture in America from the colonial era to the present day and better understand the many challenges that women have faced to achieve success in their religion-related endeavors.

Spotlight on America: Underground Railroad Robert W. Smith, 2005-03 Encourage students to take an in-depth view of the people and events of specific eras of American history. Children and Biography Kate Douglas, 2022-08-25 The first study of life narratives produced for and written by children, this book examines the recent popularity of children's biographies and how they engage with the biggest issues of our time: environmental change, health crises, education, and children's personal and political development. Beginning with a literary/historical overview, *Children and Biography* proceeds to examine 21st-century examples and trends, such as illustrated texts including *Women in Science*, the *Fantastically Great Women Who* books, *Rebel Dogs*, *Goodnight Stories for Rebel Girls*, *Kids Who Did My Beautiful Birds*, and *The Journey*. The book also considers archives of children's writings and drawings, in particular the testimonies of child asylum seekers, children's biographical art, and lockdown diaries produced during the COVID-19 pandemic. By analyzing these works alongside empirical studies into how such material is received by child readers and how texts generated by children are perceived both by them and their parents, this book provides new knowledge on how biographies for children are produced and read. Comprehensive and original, *Children and Biography* presents an ethical/methodological framework for scholarly practice when reading, witnessing, and interpreting children's life narratives. The book offers a mandate for future researchers to place children's voices and writing at the centre of inquiries in ways that facilitate genuine agency for child authors.
