Historical Dictionary of the League of Nations Anique H.M. van Ginneken,2006-01-16 Created in 1919 shortly after World War I the League of Nations was principally designed to put an end to war But it went into hibernation when World War II broke out and was formally wound up in 1946 Not having achieved its primary objective it was deemed a failure However the many accomplishments it did realize certainly allows for arguments against this idea During its two decade existence the League of Nations resolved and defused many conflicts and crises as well as established a rapport among its members It was also active in many other political social and technical fields including minorities refugees human rights labor health telecommunications and supervision of former colonial territories which had become mandates Above all the League of Nations proved to be training ground for the United Nations and the countless other organizations both governmental and non governmental which now surround us Just what the League of Nations was able to do during its brief but hectic career is summed up in this book The dictionary section contains several hundred cross referenced entries on its founders and supporters its rather small staff and secretariat the various subordinate or related organizations and their overwhelming tasks The historical background is described in the introduction and plotted year by year in the chronology while the bibliography points to further reading

The League of Nations and the Organization of Peace Martyn Housden,2014-07-22 The League of Nations pre cursor to the United Nations was founded in 1919 as a response to the First World War to ensure collective security and prevent the outbreak of future wars It was set up to facilitate diplomacy in the face of future international conflict but also to work towards eradicating the very causes of war by promoting social and economic justice The philosophy behind much of the League s fascinating and varied roles was to help create satisfied populations who would reject future threats to the peace of their world In this new volume for Seminar

Maul, 2012-01-27 An innovative diplomatic and intellectual history of decolonization post colonial nation building and international human rights and development discourses this study of the role of the ILO during 1940-70 opens up new perspectives on the significance of international organisations as actors in the history of the 20th century
