Seaside Operations Planning in Container Terminals Frank Meisel, 2009-05-28

1.1 Motivation and Scope of Research Container terminals in seaports constitute interfaces between sea and land transport of goods in global transport chains These logistics facilities face an increasing demand of service capacity as is reflected by a tremendous growth in the worldwide container transshipments per year For example the top 20 terminals in the world showed an average relative increase of 14% with respect to the number of handled container units from 2006 to 2007 see Port of Hamburg Marketing 2008 In spite of this development competition is high among container terminals within the same region A terminal's customers first and foremost the vessel operators expect a high level of service quality where reliability is one of the most important dimensions see Wiegman et al 2001 Regarding the service of a vessel reliability means to realize all transshipment operations within its projected service time interval The reliability of terminal operations impacts the reliability of vessels in meeting their liner schedules According to Notteboom 2006 unexpected waiting times of vessels before berthing and unexpected low transshipment productivity at terminals are responsible for about 86% of liner schedule disturbances see Fig 1.1 Currently many terminal operators counteract this situation by extending their transshipment capacities They build new terminals or enlarge existing terminals and purchase new or upgrade existing equipment Ilmer 2005 provides an overview of current projects for building terminal capacity in northern Europe

Decomposition Techniques in Mathematical Programming Antonio J. Conejo, Enrique Castillo, Roberto Minguez, Raquel Garcia-Bertrand, 2006-04-28

Optimization plainly dominates the design planning operation and control of engineering systems This is a book on optimization that considers particular cases of optimization problems those with a decomposable structure that can be advantageously exploited Those decomposable optimization problems are ubiquitous in engineering and science applications The book considers problems with both complicating constraints and complicating variables and analyzes linear and nonlinear problems with and without integer variables The decomposition techniques analyzed include Dantzig Wolfe Benders Lagrangian relaxation Augmented Lagrangian decomposition and others Heuristic techniques are also considered Additionally a comprehensive sensitivity analysis for characterizing the solution of optimization problems is carried out This material is particularly novel and of high practical interest This book is built based on many clarifying illustrative and computational examples which facilitate the learning procedure For the sake of clarity theoretical concepts and computational algorithms are assembled based on these examples The results are simplicity clarity and easy learning We feel that this book is needed by the engineering community that has to tackle complex optimization problems particularly by practitioners and researchers in Engineering Operations Research and Applied Economics The descriptions of most decomposition techniques are available only in complex and specialized mathematical journals difficult to understand by engineers A book describing a wide range of decomposition techniques emphasizing problem solving and appropriately blending theory and application was not previously available

Handbook of Terminal Planning Jürgen W. Böse, 2020-09-14

Seaport Container Terminals SCT operate as central nodes in worldwide hub and spoke networks and link ocean going vessels with smaller feeder vessels as well as with inbound and outbound hinterland transportation systems using road rail or inland waterways The volume of transcontinental container flows has gained enormously over the last five decades frequently leading to double digit annual growth rates for the SCT The 2nd edition of the Handbook of Terminal Planning also deals with problems being induced by questions of terminal development on a long term basis strategic level Facing present and upcoming challenges for SCT

operation such as more and more mega vessels extremely high hinterland peaks higher environmental standards less public acceptance and the stronger competition between terminals serving the same hinterland the focus of the book is on successful approaches and solutions primarily addressing the planning of terminal structures Nevertheless operational aspects are considered as well as how they effectively contribute to problem solving on the strategic level Russian Engineering Journal ,1979 Proceedings of First International Conference on Emerging Trends in Mechanical Engineering

, **EAI International Conference on Automation and Control in Theory and Practice** Michal Balog,Angelina Iakovets,Stella Hrehova,2023-08-08 This book presents the proceedings of the 15th EAI International Conference on Automation and Control in Theory and Practice ARTEP 2023 held in Star Lesn Slovakia February 8 10 2023 The aim of the conference was to meet the experts in the field of control industrial automation and ICT in the industry from universities colleges and practice The conference aims to draw attention to modern trends in the field to enable experts pedagogues and scientific researchers to present the results achieved in their work to exchange experiences and establish working contacts between meeting participants The ARTEP proceedings includes papers on automation and control and their integration of technologies such as Industry 4 0 robotics and IoT ARTEP is primarily a conference for scientists and practitioners who develop and study automation management and technologies **Modeling, Simulation and Control of Nonlinear Engineering Dynamical Systems** Jan Awrejcewicz,2008-12-26 This volume contains the invited papers presented at the 9th International Conference Dynamical Systems Theory and Applications held in L dz Poland December 17 20 2007 dealing with nonlinear dynamical systems The conference brought together a large group of outstanding scientists and engineers who deal with various problems of dynamics encountered both in engineering and in daily life Topics covered include among others bifurcations and chaos in mechanical systems control in dynamical systems asymptotic methods in nonlinear dynamics stability of dynamical systems lumped and continuous systems vibrations original numerical methods of vibration analysis and man machine interactions Thus the reader is given an overview of the most recent developments of dynamical systems and can follow the newest trends in this field of science This book will be of interest to to pure and applied scientists working in the field of nonlinear dynamics *Marine Cargo Operations* Robert J. Meurn,2011-03-31 *Marine Cargo Operations* clearly spells out the basic principles of cargo operations and acquaints merchant officers with the techniques of stowage and their application Based on the authors half century of experience the book singles out the most practical methods procedures and philosophies and presents them in thorough detail Each discussion is enhanced by photographs or drawings The book provides a complete understanding of the shipping cycle so all associated personnel can work as a team in observing the three Cs of shipping communication cooperation and coordination The third edition emphasizes containerization and the responsibilities of the ship s officers for the proper and safe carriage of their cargo The chapter on cargo responsibility has been updated by an admiralty lawyer and a new chapter Stowage of Containers has been written by a ship s master with

thirty years of containership experience The National Cargo Bureau furnished a chapter on stowage of grain bulk cargo Also included are discussions on breakbulk cargo and how the ship s officer can prevent condensation or moisture damage the most common cause of cargo damage claims This edition provides vital information and questions and answers for candidates taking a U S Merchant Marine license examination and is an important refresher for those who have already received their licenses
