Security Daniel J. Benny, Ph.D, 2012-08-16 After 9 11 the initial focus from the U S government media and the public was on security at commercial airports and aboard commercial airlines Soon investigation revealed the hijackers had trained at flight schools operating out of general aviation airports leading to a huge outcry by the media and within the government to mandate security Human Rights in Nigeria's External Relations in the Age of General Muhammadu Buhari and His

Successors Philip C. Aka, 2024-07-17 Under the Fourth Republic since 1999 the challenge Nigerian leaders face like never before is how to create a state that matches the expectations of their diverse peoples at home and abroad Taking this proposition as starting point this book advances proposals for a human right policy referred to alternately in the work as principled foreign policy for Nigeria under the Fourth Republic taking advantage of the inestimable opportunity afforded by

General Muhammadu Buhari's departure from the political scene on May 29 2023 after the famine domestically and externally wrought by his two terms of office as President. It is a broad ranging argument draped in the less arcane constitutional vocabulary and material of human rights for thoroughgoing reforms at home and abroad as the only antidote to the nation building dilemmas Nigeria confronts in the first quarter of the twenty first century. Buhari's departure marks the end of military teleguidance of Nigerian politics under the Fourth Republic in the camouflage of democratic rule a birthmark of remote control dating back to the first military intervention in the country in January 1966. These momentous events within Nigeria coincide with equally epoch making developments in the UK: Nigeria's former colonial overlord with ripple effects in Nigeria signified by the death of Queen Elizabeth II after seven decades on the throne and the emergence of Prince Charles as King of England. A new monarch in Britain adds to the opportunity that falls open for the reconfiguration of Nigeria's external relations with ramifications for the application of human rights in those relations. Despite its known disabilities Nigeria has the potential infrastructure including its sizable population to conduct a human right policy if its leaders rationalize the country's resources more wisely.

supervised machine learning based wind prediction to enable - Oct 30 2022

web jan 4 2021 this research aims to yield a continuous wind prediction model by combining a supervised learning algorithm with the inverse distance weighting technique specifically this research compares three different supervised learning algorithms that include gaussian process multi layer perceptron and support vector machine to

*physics informed machine learning for wind speed prediction* - May 25 2022

web apr 1 2023 here we take an alternative data driven approach based on supervised learning we analyze massive datasets of wind measured from anemometers located at 10 m height in 32 locations in central and north west italy we train supervised learning algorithms using the past history of wind to predict its value at future horizons

*wind power forecasting with deep learning networks time* - Mar 03 2023
