 between mind and brain has been one of the most persistent problems in modern Western thought even recent advances in  
 neuroscience haven t been able to explain it satisfactorily Historian Larry Sommer McGrath s Making Spirit Matter studies  
 how a particularly productive and influential group of nineteenth and early twentieth century French thinkers attempted to  
 solve this puzzle by showing the mutual dependence of spirit and matter The scientific revolution taking place at this point in  
 history across disciplines from biology to psychology and neurology located our mental powers in the brain and offered a  
 radical reformulation of the meaning of society spirit and the self Tracing connections among thinkers such as Henri Bergson  
 Alfred Fouill e Jean Marie Guyau and others McGrath plots alternative intellectual movements that revived themes of  
 creativity time and experience by applying the very sciences that seemed to undermine metaphysics and religion Making
