from several points of view The discussions in Part I are more theoretical and concentrate on the application to this case of general considerations from ethical theory The discussions in Part II also take up theoretical questions but they start from specific problems about the constitutionality and the effectiveness of certain methods of achieving equality and counteracting discrimination The two groups of essays demonstrate admirably the close connection between moral philosophy and questions of law and policy The issues discussed include compensation liability victimization the significance of group membership the intrinsic importance of racial sexual or meritocratic criteria and the overall effects of preferential policies

Tested with examiners and students *Prenatal Diagnosis* Lenore Abramsky, Jean Chapple, 2013-11-11 This book evolved out of a conference which was held because of our conviction that prenatal screening and diagnostic techniques provide carers with a two edged sword which can do both good and harm often at the same time to the same person The conference The Human Side of Prenatal Diagnosis dealt with emotional ethical and legal issues in prenatal screening and diagnosis It took place in March 1992 at the Institute of Obstetrics and Gynaecology in London and was attended by obstetricians paediatricians geneticists midwives and ultrasonographers from the North West Thames Health Region The demand for places at the conference far exceeded the number of places available and many people who attended expressed the hope that we would be organizing similar conferences in the future This confirmed our belief that we were not the only ones preoccupied with the human issues raised by the new technologies and encouraged us to work towards this publication Prenatal diagnosis and the possibility of selective termination of affected pregnancies is part of a wider move towards reproductive choice Like contraception and assisted conception it can make a major difference to the lives of some people In our culture we tend to view choice as a good thing We look upon it as our right to choose our occupation our partner the place where we live the books that we read and the way that we vote *A Companion to Applied Ethics* R. G. Frey, Christopher Heath Wellman, 2008-04-15 Applied or practical ethics is perhaps the largest growth area in philosophy today and many issues in moral social and political life have come under philosophical scrutiny in recent years Taken together the essays in this volume including two overview essays on theories of ethics and the nature of applied ethics provide a state of the art account of the most pressing moral questions facing us today Provides a comprehensive guide to many of the most significant problems of practical ethics Offers state of the art accounts of issues in medical environmental legal social and business ethics Written by major philosophers presently engaged with these complex and profound ethical issues **Fetal Medicine** Charles H. Whittle, 2009-01-01 Fetal medicine has emerged as a separate subspecialty over the last 30 years as a result of major advances in a number of areas in particular ultrasound imaging cytogenetics molecular biology and biochemistry The widespread use of antenatal screening and diagnostic tests has led to an increased need for obstetricians to have knowledge and skills in fetal medicine This book provides the information that underpins training programmes in fetal medicine and integrates science and clinical disciplines in a practical and useful way Clinical sections include the latest advances in prenatal screening a systems based presentation of the diagnosis and management of fetal malformations complete coverage of common and rare fetal conditions including growth restriction endocrine and platelet disorders early pregnancy loss and twins multiple pregnancy More focus on important basic science concepts such as maternal-fetal cell trafficking and the relevance to clinical management **The Analytic Imaginary** Marguerite La Caze, 2018-09-05 The notion of the philosophical imaginary developed by Michel Le Doeuff refers to the capacity to imagine as well as to the stock of images philosophers employ Making use of this notion Marguerite La Caze explores the idea of the imaginary of analytic

philosophy Noting the marked tendency of analytic philosophy to be unselfconscious about the use of figurative language and the levels at which it works La Caze shows how analytic images can work to define the parameters of debates and exclude differing approaches including feminist ones La Caze focuses on five influential types of images in five central areas of contemporary analytic philosophy analogies and how they are used in the abortion debates thought experiments in personal identity the myth of the social contract Thomas Nagel's use of visual and spatial metaphors in epistemology and Kendall Walton's use of children's games as a foundational model in aesthetics The author shows how the image promotes assumptions and conceals tensions in philosophical works how the image persuades and how it limits debate and excludes ideas In providing an analysis of and reflection on the nature of the analytic imaginary La Caze suggests that a more open ended and reflexive approach can result in richer more fruitful philosophical work *The Publishers' Trade List Annual*

,1985 **John Rawls and Christian Social Engagement** Greg Forster,Anthony B. Bradley,2014-12-18 This book critiques the Rawlsian concepts of justice as fairness and public reason from the perspective of Christian political theory and practice The Rawlsian paradigm has become pervasive in multiple disciplines outside political philosophy and is unconsciously embedded in a great deal of Christian public discourse this calls for a new level of analysis from Christian perspectives This is the first volume to examine Rawls based on Christian principles drawn from theological ethics social thought political theory and practical observation In addition to theoretical perspectives the book connects its critique of Rawls to specific hot topic practical questions in three areas social issues abortion marriage etc economic issues wealth creation poverty programs etc and the increasing difficulty of political compromise and peaceful coexistence in the context of the culture war The book includes some of the leading Christian political theorists in America *Wittgenstein's Beetle and Other Classic Thought Experiments* Martin Cohen,2008-04-15
