## **Sacred Geometry Deciphering The Code:**

Sacred Geometry Stephen Skinner, 2009 A fascinating and inspirational look at the vital link between the hidden geometrical order of the universe geometry in nature and the geometry of the man made world The Da Vinci Code has awakened the public to the powerful and very ancient idea that religious truths and mathematical principles are intimately intertwined Sacred Geometry offers an accessible way of understanding how that connection is revealed in nature and the arts Over the centuries temple builders have relied on magic numbers to shape sacred spaces astronomers have used geometry to calculate holy seasons and philosophers have observed the harmony of the universe in the numerical properties of music By showing how the discoveries of mathematics are manifested over and over again in biology and physics and how they have inspired the greatest works of art this illuminating study reveals the universal principles that link us to the infinite

**Sacred Geometry Book of History, Meanings and How to Create Them** Debbie Brewer, 2019-02-12 Why is it that we are so drawn to and enticed by sacred geometry They start with simple mathematical shapes that combine to create elaborate illustrations of such beauty and elegance that we marvel at them Beliefs religious spiritual and cultural have been historically attached to them The specific design and creation of each individual sacred geometric pattern is thought among many cultures not only to demonstrate an understanding of specific universal concepts but to hold powers of mystical possibilities The aim of this book is to provide an understanding of the history creation and meanings of sacred geometry for those who are new to the subject and to open an insight into the beliefs placed upon them with the hope that it will inspire the reader's interest and imagination and increase their enthusiasm Enjoy learning how such simple shapes can evolve into inspiring and powerful patterns that weave through the fabric of our entire universe and reality **The Essence of Sacred**

this circular numerical world where numbers individually and collectively exist in their most basic yet perfect and symmetrical states and where the basic nine numbers are differentiated into three groups of amazing properties which will be shown to underlie the essence of the whole universe from the atom and its forces to the solar system and its geometry This book will take us on a numerical and spiritual journey starting from prime and figurate numbers to Fibonacci sequence and the golden section to alchemy and the Mayan calendar to the atoms and its forces along with the ether and the fourth dimension In addition the author will show how these new revelations of the digital root world are corroborating the numerological and mystical qualities that have been attributed to numbers by philosophers and mystics throughout the ages This book will paint a so holistic and meaningful image of the world that will forever change our perception not only towards numbers but towards the whole universe as well     The secrecy science and magic of enlightenment Ryan

Evans,Peter Levenda,2021-11-15 An arcane ritual reveals a code hidden within Thelema s most holy book Over a period of several years the former head of Kenneth Grant s Typhonian Order in the United States conducted a bizarre sexual ritual with elements of Thelema Lovecraft and the Egyptian mummification ceremony to unlock a mathematical code buried in plain sight in Aleister Crowley s Book of the Law Jeffrey Evans a follower of Aleister Crowley s Thelema since his teenage years had an encounter on a bridge in Washington DC with a being he identified as his holy guardian angel This being Karla provided him with the inspiration to begin a series of rituals incorporating Egyptian and Lovecraftian elements in an effort to traverse the Tunnels of Set pathways on the dark side of the Qabalistic Tree of Life The ritual conducted with his wife Ruth Keenan employed cross dressing and bondage as well as Cthulhian imagery and chanting and resulted in a series of revelations concerning the mathematical code hidden within the verses of Crowley s Book of the Law a circumstance that Crowley always suspected but was never able to prove not even with the help of accomplished mathematicians Evans tried in vain to demonstrate this code to other members of the Typhonian Order to no avail but a chance meeting online with Peter Levenda resulted in Levenda s taking a closer look at the data and what he discovered astounded him He agreed to help bring this discovery to the attention of the general public There has been very little new work published in the field of Thelema in the last 10 years or so at least since the death of Kenneth Grant Most publishing concerning Crowley has been biographical or reissues of Crowley s own material This work is a departure from all of that It is new material completely unexpected within the Crowley Thelema OTO environment for it offers a new approach to the mathematical nature of Thelema that so far has been based on Qabalah This work brings attention to the existence of a sacred geometry within the verses of the Book of the Law a completely unexpected discovery but nonetheless mathematically verifiable It bridges the gap between Thelema Freemasonry and Templarism as well as Gnosticism demonstrating a continuum of esoteric thought spanning millennia      **The Mereon Matrix** Lynnclaire Dennis,Jytte Brender McNair,Louis H.
