The Ballad of the Lone Medievalist Kisha G. Tracy,John P. Sexton,2018 Working medievalists are often the only scholar of the Middle Ages in a department a university or a hundred mile radius While working to build a body of focused scholarly work the lone medievalist is expected to be a generalist in the classroom and a contributing member of a campus community that rarely offers disciplinary community in return As a result overtasked and

single medievalists often find it challenging to advocate for their work and field. As other responsibilities and expectations crowd in, we come to feel disconnected from the projects and subjects that sustain our intellectual passion. An insidious isolation even from one another creeps in, and soon even attending a conference of fellow medievalists can become a lonely experience. Surrounded by scholars with greater institutional support, lower teaching loads, or more robust research agendas, we may feel alienated from our work, the work to which we've dedicated our careers.

The Lone Medievalist is the collaborative community, and the book is intended as an antidote to the problem of professional isolation. It is offered in the spirit of common weal that marks the ideals if not always the realities of so many of the communities we study: agricultural, professional, national, notional, and of course monastic. *The Ballad of the Lone Medievalist* isn't only about scholarship or teaching or institutional life or the pursuit of new learning; it's about all of them. The essays in this volume address all aspects of the professional and intellectual life of medievalists. Though many of us acknowledge and address the challenges in being Lone Medievalists, these essays are not intended as *voces clamantium*; they are offered to provide strategies, camaraderie, and an occasional bit of inspiration. They are a call to action, a sharing of hard-won wisdom, and a helping hand, and above all, a reminder that we are not alone.
