**Human Behavior in Organizations** Rodney C. Vandever, Michael L. Menefee, 2010 Java Programming From The Ground Up with its flexible organization teaches Java in a way that is refreshing fun interesting and still has all the appropriate programming pieces for students to learn The motivation behind this writing is to bring a logical readable entertaining approach to keep your students involved Each chapter has a Bigger Picture section at the end of the chapter to provide a variety of interesting related topics in computer science The writing style is conversational and not overly technical so it addresses programming concepts appropriately Because of the flexible organization of the text it can be used for a one or two semester introductory Java programming class as well as using Java as a second language **Human Behavior in**
