Cohen, Glenn S. Holland, 2017-12-31 Alpha is an annual repository for leading edge research in the New Testament and related texts and the historical development which the texts imply Like its older sister journal Warring States Papers it has a central focus on the methodology of text based historical research and includes examples of the application of basic historical and philological methods to texts in other traditions including Chinese and Homeric Greek In the past the early Christian texts have been approached theologically rather than as historical sources Christian history has been seen as fully realized in Paul and all other viewpoints are dismissed as later heresies But many of the NT texts give hints of a pre Pauline Christianity the thing Paul began by persecuting The work of the Project leads to an unexpectedly full picture of that pattern of early belief and practice It is this to which we have given the name Alpha Christianity It turns out to be remarkably close to what many contemporary Christians actually live This first volume takes up the principal Gospels and other early sources for the teachings of Jesus It notes evidence for stratification in Mark leading to the earliest and thus most authoritative stratum of that text It finds no need to posit a common source for Matthew and Luke and instead argues for mutual contact between them Mandaean and Gospel echoes of John the Baptist are compared the work of William O Walker Jr on interpolations in Paul is continued and a foundation is laid for the introduction of a new stylistic difference test in v2 **The Athenaeum**

Divining Gospel Jeff W. Childers,2020-03-23 Ancient manuscripts of John s Gospel containing hermeneiai have long puzzled scholars provoking debate about their origins purpose and use The fragmentary nature of the early evidence has impeded progress towards a better understanding of these specialized books The present study shows that these books are Divining Gospels editions of John s Gospel incorporating lot divination materials for use in fortune telling The study centers on material presented here for the first time the text and translation of a unique sixth century Syriac manuscript the earliest and most complete example of a hermeneia Gospel An analysis of the Syriac along with evidence from Greek Coptic Latin and Armenian versions show they all preserve vestiges of the same apparatus disseminated widely at an early time throughout many different Christian communities These books must be situated squarely within the development of divinatory practices in early and late antique Christianity However they represent a true hermeneutic a method by which interpreters brought the potency of the Bible to bear on the everyday concerns of people who consulted them for help Furthermore the Divining Gospel draws on the special aura that John s Gospel held in the Christian imagination both as text and as textual object An analysis of the interplay between the biblical text and sacred codex the oracles the ritual practitioner and the client enrich our appreciation of this distinctive hermeneutic Contextualizing these materials in popular use illuminates the fraught relationships between the ecclesial establishment ritual experts operating on the margins of orthodox respectability and lay clients seeking knowledge and help

Homer and the Question of Strife from Erasmus to Hobbes Jessica Wolfe,2015-01-01 From antiquity through the Renaissance Homer s epic poems the Iliad theOdyssey and the various mock epics incorrectly ascribed to him served as a lens through which readers translators and writers interpreted contemporary conflicts They looked to Homer for wisdom about the danger and the value of strife embracing his works as a mythographic shorthand with which to describe and interpret the era s intellectual political and theological struggles Homer and the Question of Strife from Erasmus to Hobbes elegantly exposes the ways in which writers and thinkers as varied as Erasmus Rabelais Spenser Milton and Hobbes presented Homer as a great champion of conflict or its most eloquent critic Jessica Wolfe weaves together an exceptional range of sources including manuscript commentaries early modern marginalia philosophical and political treatises and the visual arts Wolfe s transnational and multilingual study is a landmark work in the study of classical reception that has a great deal to offer to anyone examining the literary political and intellectual life of early modern Europe *Blackwood's Edinburgh Magazine* ,1841 **Gnomon** ,2003 *Classical Traditions in Science Fiction* Brett M. Rogers,Benjamin Eldon Stevens,2015-01-12 For all its concern with change in the present and future science fiction is deeply rooted in the past and

surprisingly engages especially deeply with the ancient world Indeed both as an area in which the meaning of classics is actively transformed and as an open ended set of texts whose own classic status is a matter of ongoing debate science fiction reveals much about the roles played by ancient classics in modern times Classical Traditions in Science Fiction is the first collection in English dedicated to the study of science fiction as a site of classical receptions offering a much needed mapping of that important cultural and intellectual terrain This volume discusses a wide variety of representative examples from both classical antiquity and the past four hundred years of science fiction beginning with science fiction s rosy fingered dawn and moving toward the other worldly literature of the present day As it makes its way through the eras of science fiction Classical Traditions in Science Fiction exposes the many levels on which science fiction engages the ideas of the ancient world from minute matters of language and structure to the larger thematic and philosophical concerns The Westminster Review ,1847 London and Westminster Review ,1846 **Warring States Papers (Volume 1)** E. Bruce Brooks,Alvin P. Cohen,Donald E. Gjerdtson,2010-12-31 Warring States Papers seeks to apply standard philological methods to major unsolved textual problems a to establish the nature and interrelations of the texts including the recognition of interpolations and of text growth generally b to date the texts or their constituent layers and finally c to read the history of the period from that newly available source material In both fields with their core of culturally protected texts these fundamental preliminaries have tended to be overlooked The Project s revolution in both its fields of concern has consisted in large part of not overlooking them Once the basic questions have been asked and at least in part answered the history of each period is more readily available for further study as such and for comparison with similar developments both ancient and modern New contributions developing this methodologically fresh beginning are welcome To encourage them and to ensure variety in each annual volume the journal emphasizes short articles rather than long disquisitions Index Scholasticus.
