Genetic Improvement of Triticeae Crops Based on High-throughput Phenotyping: Molecular Design for Yield, Resistance and Tolerance Xiaoli Fan, Yunfeng Xu, Fa Cui, Pengtao Ma, Shuyu Liu, 2023-04-03 [DNA, Race, and Reproduction](#) Emily Klancher Merchant, Meaghan O'Keefe, 2025-01-07 A free ebook version of this title is available through Luminos University of California Press's Open Access publishing program Visit www.luminosoa.org to learn more DNA Race and Reproduction helps readers inside and outside of academia evaluate and engage with the current genomic landscape It

brings together expertise in law medicine religion history anthropology philosophy and genetics to examine how scientists medical professionals and laypeople use genomic concepts to construct racial identity and make or advise reproductive decisions often at the same moment It critically and accessibly interrogates how DNA figures in the reproduction of racialized bodies and the racialization of reproduction and examines the privileged position from which genomic knowledge claims to speak about human bodies societies and activities The volume begins from the premise that reproduction regardless of the means forces a confrontation between biomedical scientific and popular understandings of genetics and that those understandings are often racialized It therefore centers reproduction as both a site of analysis and an analytic lens
