and Social Work Practice Lena Robinson, M Rafik Gardee, 2022-03-30 Radicalisation Extremism and Social Work Practice is the first book to explore cultural identity acculturation and perceived discrimination of Muslim youth across Western countries in relation to social work as well as the radicalisation and extremist views and actions of a small number of Muslim youth. It draws on relevant theoretical frameworks and research to examine the different approaches taken in social work practice. Some countries consider multi agency approaches particularly how public health practice can inform interventions and strategies. Others take a public health approach looking for risk factors and seeking protective factors to develop suitable interventions within the communities through public engagement and partnership. As well as examining and discussing the above approaches this book critically examines government and community based approaches to radicalisation and extremism and strategies for combating these. This volume will be a valuable resource for social work students including other disciplines such as psychology public health psychiatry sociology political science and community development. It will also be of interest to policy makers practitioners and researchers.
