Dollars And Sex How Economics Influences Love Marina Adshade:

Dollars and Sex Marina Adshade Ph.D.,2013 A big book on the economics of sex and love in the style of Freakonomics

Dollars and Sex Marina Adshade,2013-05-04 There s a marketplace for sex and love and you re in it In *Dollars and Sex* economist Marina Adshade converts economic theory into a sexy science by applying the principles of supply and demand and other market forces to matters of love and libido As she does in her hugely popular blog of the same name Adshade unlocks the mysteries behind our actions thoughts and preferences using engaging research economic analysis and humor The end result is a fascinating look at just how central the interplay of libido gender love power and economic forces is to the most important choices we make in our lives When dating online do we create thin markets making it harder to find a mate What is the relationship between rising rates of casual sex and the widening earning gap Is modern marriage just an opportunity to consume more goods and services If teenagers are having sex less frequently why are STD rates in that group on the rise Ultimately Marina Adshade shows that every option every decision and every outcome in matters of sex and love is better understood through economics **Dirty Money** Marina Adshade,2013-05-02 In this witty and revelatory

investigation of the so called dismal science University of British Columbia professor Marina Adshade skips the usual widgets and uncovers how the market comes to bear on our most intimate decisions sex dating courtship love marriage even breaking up The science of sexonomics is born How much money does an ugly guy need to have to attract as many women via an online dating site as a hot man Is modern marriage just an opportunity to consume more goods and services Does raising the price of beer reduce risky sex Why does a spike in the sale of sex toys predict an upcoming recession while an increase in the number of breast lifts indicates a perkier economy is on the way Which comes first a prosperous nation or a promiscuous one Once you read *Dirty Money* you ll never look at your money or your relationships the same way again **Dollars and Sex**

Marina Adshade,2013-03-19 Like *Freakonomics* *Dollars and Sex* takes economics and converts it into a sexy science by applying the principles of supply and demand and other market forces to matters of love courtship sex and marriage As she does in her hugely popular blog author Marina Adshade explores the marketplace for sex and love using research economic analysis and humor to reveal just how central the interplay of libido gender love power and economic forces is to the most important choices we make in our lives Call it Sexonomics **Under the Influence** Robert H. Frank,2021-10-19 From New York Times bestselling author and economics columnist Robert Frank bold new ideas for creating environments that promise a brighter future Psychologists have long understood that social environments profoundly shape our behavior sometimes for the better often for the worse But social influence is a two way street our environments are themselves products of our behavior *Under the Influence* explains how to unlock the latent power of social context It reveals how our environments encourage smoking bullying tax cheating sexual predation problem drinking and wasteful energy use We are building bigger houses driving heavier cars and engaging in a host of other activities that threaten the planet mainly because that s what

friends and neighbors do In the wake of the hottest years on record only robust measures to curb greenhouse gases promise relief from more frequent and intense storms droughts flooding wildfires and famines Robert Frank describes how the strongest predictor of our willingness to support climate friendly policies install solar panels or buy an electric car is the number of people we know who have already done so In the face of stakes that could not be higher the book explains how we could redirect trillions of dollars annually in support of carbon free energy sources all without requiring painful sacrifices from anyone Most of us would agree that we need to take responsibility for our own choices but with more supportive social environments each of us is more likely to make choices that benefit everyone Under the Influence shows how

The Ethics of Sex Neil McArthur, 2022-03-29 The Ethics of Sex An Introduction systematically and comprehensively examines the ethical issues surrounding the concept of sex It addresses important questions such as How can we approach questions of sexual ethics in a philosophical way Must we give affirmative consent to all sexual activity and what would be the impact of implementing an affirmative consent standard into law Can our dating preferences ever be considered a form of discrimination Is BDSM sex compatible with feminism Should we promote monogamy as the best way to live Is it harmful to have a relationship with a robot Should sex work be decriminalized Is there a right to sex Including discussion questions and suggestions for further reading at the end of each chapter The Ethics of Sex is the perfect philosophical introduction to the perennially topical issue and ideal reading for students taking courses within the fields of applied ethics sociology law religion and politics

How to Fall in Love with Anyone Mandy Len Catron, 2017-06-27 A beautifully written and well researched cultural criticism as well as an honest memoir Los Angeles Review of Books from the author of the popular New York Times essay To Fall in Love with Anyone Do This explores the romantic myths we create and explains how they limit our ability to achieve and sustain intimacy What really makes love last Does love ever work the way we say it does in movies and books and Facebook posts Or does obsessing over those love stories hurt our real life relationships When her parents divorced after a twenty eight year marriage and her own ten year relationship ended those were the questions that Mandy Len Catron wanted to answer In a series of candid vulnerable and wise essays that takes a closer look at what it means to love someone be loved and how we present our love to the world Catron melds science and emotion beautifully into a thoughtful and thought provoking meditation Bookpage She delves back to 1944 when her grandparents met in a coal mining town in Appalachia to her own dating life as a professor in Vancouver She uses biologists research into dopamine triggers to ask whether the need to love is an innate human drive She uses literary theory to show why we prefer certain kinds of love stories She urges us to question the unwritten scripts we follow in relationships and looks into where those scripts come from And she tells the story of how she decided to test an experiment that she'd read about where the goal was to create intimacy between strangers using a list of thirty six questions and ended up in the surreal situation of having millions of people following her brand new relationship Perfect fodder for the romantic and the cynic in all of us Booklist How to Fall in Love
