**The Orphaned Land** V. B. Price, 2011-11-16 Although most people prefer not to think about them hazardous wastes munitions testing radioactive emissions and a variety of other issues affect the quality of land water and air in the Land of Enchantment as they do all over the world In this book veteran New Mexico journalist V B Price assembles a vast amount of information on more than fifty years of deterioration of the state's environment most of it hitherto available only in scattered newspaper articles and government reports Viewing New Mexico as a microcosm of global ecological degradation Price's is the first book to give the general public a realistic perspective on the problems surrounding New Mexico's environmental health and resources

**Water and the California Dream** David Carle, 2016-05-01 In the last one hundred years imported water has transformed the environment of the Golden State and its quality of life with land ownership patterns and real estate boosterism dramatically altering both urban and rural communities The key to this transformation has been expanded access to water from the Eastern Sierra the Colorado River and Northern California rivers Whoever brings the water brings the people wrote engineer William Mulholland under whose leadership the process of growth through irrigation began Now using first person voices of Californians to reveal the resulting changes author David Carle concludes that it may be time to stop drowning the California dream of the good life with imported water Using oral histories contemporary newspaper articles and autobiographies Carle explores the historic changes in California showing how imported water has shaped the pattern of population growth in the state Because water choices remain the primary tool for shaping California's future Carle also argues that it is possible to improve both the state's damaged environment and the quality of life if Californians will step out of this historic pattern and embrace limited water supplies as a fact of life in this naturally dry region **Disaster Mitigation, Preparedness, and Response** United States. Congress. House. Committee on Transportation and Infrastructure. Subcommittee on Water Resources and Environment, 1998 **Drought, Risk Management, and Policy** Linda Courtenay Botterill, Geoff Cockfield, 2013-01-28 Australia and the United States face very similar challenges in dealing with drought Both countries cover a range of biophysical conditions both are federations that provide considerable responsibility to state governments for water and land management and both face the challenges in balancing rural industry and urban development especially in **IWR Report**, 1991
