Greenchem: Recent developments in chemical engineering Mr. Saaket Ajmire, Mr. Nilesh S. Dumore, This event provides a platform for students from all over the country to share latest trends in engineering and technology This event now is eclipsed with silver edge to make it most appreciable Technological Mega Event in our University We are continuously trying for upliftment of talents and innovative ideas of engineering students **Business India** ,1999 *World Class in India* Sumantra Ghoshal, Gita Piramal, Sudeep Budhiraja, 2002 Recent Advances in Power Electronics and Drives Shailendra Kumar, Bhim Singh, Arun Kumar Singh, 2022-05-26 This book contains select proceedings of EPREC 2021 with a focus on power electronics and drives The book includes original research and case studies that present recent developments in power electronics focusing on power inverters and converters The book also consists of research work on electrical drives regulated power supplies operation of FACTS HVDC etc The book will be a valuable reference guide for beginners researchers and professionals interested in the advancements of power electronics and drives *Rikisha to Rapid Transit* Peter J. Rimmer, 2013-09-24 *Rikisha to Rapid Transit* Urban Public Transport Systems and Policy in Southeast Asia examines the historical development of urban public transport systems and policy in Southeast Asia The focus is on the passenger transport sector of the urban economy and the dilemmas facing decision makers with regard to the choice of technology and organization The prime target of the monograph is the development studies field in which urban public transport has been a neglected topic The book is organized into three parts Part 1 assesses Western Japanese and overseas Chinese models and their relevance to decision making in Southeast Asia Part 2 examines the evolution of transport systems and policy in five capitals Singapore Bangkok Jakarta Manila and Kuala Lumpur and several provincial cities Penang Surabaya Davao City Chiang Mai Baguio and Metro Cebu Part 3 brings out the implications of this study for theory and practice The argument is structured in this way in order to preserve the historical sequence which will become progressively clearer as the study unfolds particularly as there is a very positive indication that the transport situation in cities results as much from historical development as from the interaction of forces currently at play **Automobile India** ,1976 **Motorcycle** Steven E. Alford, Suzanne Ferriss, 2008-01-03 *Easy Rider* Motocross Grand Prix James Dean in *Rebel Without a Cause* The motorcycle is a global icon of untamed freedom symbolizing a daring and reckless lifestyle of adventure Yet there are few books that chronicle how and when this legendary vehicle roared down the open road *Motorcycle* explores the roots of the rebel's ultimate ride After early incarnations as a nineteenth century steam powered bicycle and multi wheeled vehicles the modern motorcycle came into its own as a cheap mobile military asset during World War I From there it rapidly spread through modern culture as a symbol of rebellion and subversive power and *Motorcycle* tracks the symbolic role that the bike has played in literature art and film The authors also investigate the international subcultures that revolve around the motorcycle and scooter They chart the emergence of American biker culture in the 1950s when decommissioned fighter pilots sought

new ways to satiate their desire for thrill and danger and explore how the motorcycle came to represent the untamed nonconformity of the American West In contrast smaller scooters such as the Vespa and moped became the utilitarian vehicle of choice in space starved metropolises across Europe and Asia Ultimately the authors argue the motorbike is the exemplary Modernist object dependent on the perfect balance of man and machine An unprecedented and wholly engrossing account Motorcycle is an essential reading for the Harley Davidson roadhog bike collector or anyone who s felt the power of the unmistakable king of the road

Naga, In today s world change is the only constant factor In the last few decades there has been a radical change in how organizations function To survive in this

highly volatile environment companies need a long term strategic vision and thinking In light of this strategic management has become a significant topic and is taught as the core subject in MBA PGDM programmes in Indian universities and business schools This is a book written in the context of the Indian business environment but with a global orientation It is comprehensive and contemporary in its approach

Under Construction Daniel Mains, 2019-09-13 Over the past decade Ethiopia has had one of the world's fastest growing economies largely due to its investments in infrastructure and it is through building dams roads and other infrastructure that the Ethiopian state seeks to become a middle income country by 2025 Yet most urban Ethiopians struggle to meet their daily needs and actively oppose a ruling party that they associate with corruption and mismanagement In *Under Construction* Daniel Mains explores the intersection of development and governance by examining the conflicts surrounding the construction of specific infrastructural technologies asphalt and cobblestone roads motorcycle taxis and hydroelectric dams These projects serve as sites for nation building and the means for the state to assert its legitimacy The construction process as well as Ethiopians experience of living with the disruption of construction zones reveals the tension and conflict between the promise of progress and the possibility of failure Mains demonstrates how infrastructures as both ethnographic sites and as a means of theorizing such concepts as progress development and the state offer a valuable contrast to accounts of African abjection and decline
