Bank Management Financial Services 7th Edition :

Institutional Banking for Emerging Markets Wei-Xin Huang, 2007-04-04 In today's competitive banking industry institutional banking is attracting greater interest. Under the globalization umbrella, inter-bank business is undergoing dynamic change and is transcending the boundaries of traditional correspondent banking. In today's climate, no bank, regardless of size, can grow without the cooperation of other banks, and no bank can hope to survive and prosper without utilizing emerging markets. Institutional banking in emerging countries has some unique functions; for example, problem solving is heavier and more crucial in emerging markets than in developed countries given the irregularity of the market and non-transparency of the financial legal systems. Moreover, it is particularly necessary to forge good relationships day to day, contact and personal communication to provide better chances for product marketing and risk management. Products are therefore tailor-made and adapted as the situation dictates. A successful lesson for one case in one country cannot necessarily be repeated in another. Huang provides a systematic framework for the subject, combining both principles and practice. The direct experience of the author allows him to write authoritatively about the subject with academic vigour, as well as a large amount of practical knowledge which only a practitioner can provide. The book contains numerous real-life examples and case studies to allow the reader an insight into how Institutional Banking actually works in the real world. The book also contains a supplementary CD which includes chapter summaries and further information. Note: CD-ROM/DVD and other supplementary materials are not included as part of the eBook file.

FINANCIAL MARKETS, INSTITUTIONS, AND FINANCIAL SERVICES
CLIFFORD GOMEZ, 2008-07-11 Today, with the financial sector experiencing an unprecedented boom due to a variety of factors such as liberalisation, globalisation and consumer spending, the subject of this book has become more important than ever before. And this book compresses within the covers of a single volume the entire gamut of financial markets, institutions and financial services. Divided into three parts: Part I on Financial Markets deals with different Indian and global money markets and primary and secondary markets. It also covers stock exchanges and their trade mechanism, foreign exchanges as well as capital markets and their regulations. Part II Financial Institutions covers diverse banking and non-banking institutions and their legislation. Part III Financial Services discusses about the financial services which include mutual funds, lease financing, securitisation and credit and debit cards.

KEY FEATURES A unique attempt to comprehensively analyse within a single volume the working of the three pillars of the financial system: financial markets, financial institutions and financial services. Gives updated and latest financial data and related information on the subject. Provides tables and diagrams to illustrate the concepts. Questions, short answer and long answer, essay type to test the comprehension skills of the students. Intended primarily as a text for the undergraduate and postgraduate students of Commerce, this accessible text will prove to be extremely useful also for the postgraduate students of Management Economics as well as for competitive examinations. In addition, it will be a ready reference for Chartered Accountants and all those who would like to acquaint

themselves with Indian banking and capital market
