clear but complex relationship between setting and character on screen Certain settings stand out above others think of the iconic gooey dripping tunnels that Ripley stumbles through in Aliens Norman s bird decorated parlour in Psycho or the dark Gotham of certain Batman movies But what makes these particular settings so powerful and iconic Amedeo D Adamo explains why we care about and cry for certain characters and then focuses on how certain places then become windows onto their emotional lives Using popular case studies such as Apocalypse Now Amelie Homeland and The Secret Garden this original and insightful book is the first to really explain what makes some settings so effective revealing an important but as yet uncovered machinery of empathy in visual narrative space An invaluable resource for students academics and indeed young filmmakers designing their very own narratives for space on screen **The Television Treasury** Vincent
