President Donald J Trump      How to Be Married Jo Piazza, 2017-04-18 Everyone tells you marriage is hard but no one tells you what to do about it At age thirty four Jo Piazza got her romantic comedy ending when she met the man of her dreams on a boat in the Galapagos Islands and was engaged three months later But before long Jo found herself riddled with questions How do you make a marriage work in a world where you no longer need to be married How does an independent strong willed feminist become someone's partner all the time In the tradition of writers such as Nora Ephron and Elizabeth Gilbert award winning journalist and nationally bestselling author Jo Piazza writes a provocative memoir of a real first year of marriage that will forever change the way we look at matrimony A travel editor constantly on the move Jo journeys to twenty countries on five continents to figure out what modern marriage means Throughout this stunning funny warm and wise personal narrative she gleans wisdom from matrilineal tribeswomen French ladies who lunch Orthodox Jewish moms Swedish stay at home dads polygamous warriors and Dutch prostitutes Written with refreshing candor elegant prose astute reporting and hilarious insight into the human psyche *How to Be Married* offers an honest portrait of an utterly charming couple When life throws more at them than they ever expected a terrifying health diagnosis sick parents to care for unemployment they ultimately create a fresh understanding of what it means to be equal partners during the good and bad times Through their journey they reveal a framework that will help the rest of us keep our marriages strong from engagement into the newlywed years and beyond      European Politics Tim Bale, 2017-04-28 A fully revised fourth edition of a popular introduction to the comparative politics of Europe written by a highly respected authority on the subject This lively and thematically organised text provides an accessible guide to the institutions and the issues that matter in a continent where the boundaries between East and West and between domestic and European affairs are increasingly breaking down Covering a wide array of countries it is a concise yet comprehensive overview of one of the world's most important and fascinating regions Written in an approachable style and packed with up to date real world examples and information this is the ideal place for students to begin and to deepen their understanding of Europe's politics It can be adapted as a standalone text on modules on Comparative European Politics and will be of use as a key reading on undergraduate courses on Comparative Politics more broadly as well as European Union Politics New to this Edition Updated throughout to provide coverage of developments such as the Eurozone crisis the growth of left and right wing populism the rise of nationalism and Europe's on going immigration challenge Includes a short concluding chapter rounding up and considering the future of the book's core themes of Europeanization and multilevel governance Additional country profiles on Croatia and Greece to ensure representative treatment of the key countries in Europe today      *Traces of Vermeer* Jane Jelley, 2017-07-21 Johannes Vermeer's luminous paintings are loved and admired around the world yet we do not understand how they were made We see sunlit spaces the glimmer of satin silver and linen we see the softness of a hand on a lute string or letter We recognise the distilled impression of a moment of time and we feel it to be real We might hope for some answers from the experts but they are confounded too

Even with the modern technology available they do not know why there is no evidence of any preliminary drawing why there are shifts in focus and why his pictures are unusually blurred Some wonder if he might possibly have used a camera obscura to capture what he saw before him The few traces Vermeer has left behind tell us little there are no letters or diaries and no reports of him at work Jane Jelley has taken a new path in this detective story A painter herself she has worked with the materials of his time the cochineal insect and lapis lazuli the sheep bones soot earth and rust She shows us how painters made their pictures layer by layer she investigates old secrets and hears travellers tales She explores how Vermeer could have used a lens in the creation of his masterpieces The clues were there all along After all this time now we can unlock the studio door and catch a glimpse of Vermeer inside painting light

*The Imperial Mode of China* George Hong Jiang, 2023-03-07 Utilising Marxian Weberian and institutionalist approaches this book proposes a new theoretical framework for understanding the nature of Chinese economic history the imperial mode of China The book aims to innovatively apply a cohesive historical materialist framework to the economic evolution of China while at the same time offering micro analysis of China s institutions throughout its history Taking a long run perspective from ancient China up until the present the book aims to show how Chinese economic history can be viewed as a dynamic evolutionary process consisting of various stages The first part of the book lays out the imperial mode as a mode of production based on China s agricultural economy with a structure consisting of a central authority the bureaucratic system and the peasantry The second part then chronologically examines the different dynasties through this analytical lens and suggests ways in which China s resistance to institutional changes in the early modern period has had long lasting consequences for its economic development The book goes on to show how the imperial mode is able to facilitate the agricultural economy but did not foster the modern commercial and industrial economy It integrates modern China into the long wave of economic history showing how this imperial mode still exerts influence on China s current path of development as well as introducing a new way of understanding communist China from a historical perspective This book will have interdisciplinary appeal for researchers and students of economic history economic development the history of China economic sociology and social history more broadly
