Sears, Roebuck and Company,1990      *Soft Computing in Acoustics* Bozena Kostek,2013-06-29 Applications of some selected  
soft computing methods to acoustics and sound engineering are presented in this book The aim of this research study is the  
implementation of soft computing methods to musical signal analysis and to the recognition of musical sounds and phrases  
Accordingly some methods based on such learning algorithms as neural networks rough sets and fuzzy logic were conceived  
implemented and tested Additionally the above mentioned methods were applied to the analysis and verification of subjective  
testing results The last problem discussed within the framework of this book was the problem of fuzzy control of the classical  
pipe organ instrument The obtained results show that computational intelligence and soft computing may be used for solving  
some vital problems in both musical and architectural acoustics      **PC Mag** ,1994-12-20 PCMag com is a leading authority
