## **Battlefield America By John W Whitehead:**

*Battlefield America* John W. Whitehead, 2015-04-14 Police forces across the United States have been transformed into extensions of the military Our towns and cities have become battlefields and we the American people are now the enemy combatants to be spied on tracked frisked and searched For those who resist the consequences can be a one way trip to jail or even death Battlefield America The War on the American People is constitutional attorney John W Whitehead s terrifying portrait of a nation at war with itself In exchange for safe schools and lower crime rates we have opened the doors to militarized police zero tolerance policies in schools and SWAT team raids The insidious shift was so subtle that most of us had no idea it was happening This follow up to Whitehead s award winning *A Government of Wolves* is a brutal critique of an America on the verge of destroying the very freedoms that define it Hands up the police state has arrived **Battlefield America** John Whitehead, 2022-01-11 Police forces across the United States have been transformed into extensions of the military Our towns and cities have become battlefields and we the American people are now the enemy combatants to be spied on tracked frisked and searched For those who resist the consequences can be a one way trip to jail or even death Battlefield America The War on the American People is constitutional attorney John W Whitehead s terrifying portrait of a nation at war with itself In exchange for safe schools and lower crime rates we have opened the doors to militarized police zero tolerance policies in schools and SWAT team raids The insidious shift was so subtle that most of us had no idea it was happening This follow up to Whitehead s award winning *A Government of Wolves* is a brutal critique of an America on the verge of destroying the very freedoms that define it Hands up the police state has arrived **Organized Crime and American Power** Michael Woodiwiss, 2024-06-03 Popular histories of organized crime in the United States often look to the Mafia and the sons of early twentieth century immigrants such as Al Capone Lucky Luciano and Meyer Lansky for their origins In this second edition of *Organized Crime and American Power* Michael Woodiwiss refocuses on US organized crime as an American problem The book starts in 1789 with the birth of a new nation intended to be run according to laws and conventions with a written commitment to civil rights Woodiwiss examines the organization of crime before the Civil War which damaged or destroyed the lives of those excluded from constitutional protections Indigenous peoples Black people and women The book focuses on white supremacist crime and the pernicious influence of Southern leaders in alliance with opportunistic politicians It examines the organized crimes of powerful business interests in alliance with politicians as well as the corrupt consequences of the US moralistic campaigns against alcohol gambling drugs and abortion *Organized Crime and American Power* brings solid historical evidence and analysis to the task of refuting conventional wisdom that frames organized crime as something external to US political economic and social systems *The Return of Nephilim* Alan Dean Paul, 2017-02-21 Economic turmoil rising crime and unrest thrive in the news When it comes to surviving disaster remember the parable of ten virgins Matthew 25 1 13 Five virgins were prepared and five were not There are people behind problems

the world is facing today Problems just do not arise Elites use orchestrated problems to justify legislation that pushes their agenda An influential cabal of elite wants you to believe in a business cycle nations rise and fall naturally and a strong central government is essential for society to function People accept the world as being helpless without their elites keeping the wheels of progress moving Ask yourself Who really has kept the wheels of progress moving Who were the people that benefitted humanity Then ask yourself What institution has been responsible for the slaughter of millions or perhaps billions in history When you do it becomes clear that our elites control history and manipulate the masses They want you to think government the institution they work to influence most is necessary There is a way out The people who hold the secrets of the kingdom Luke 8 10 are still alive and flourishing However they need to wake up from their slumber and push back against the forces seeking their genocide Freeing themselves from the genocide of multiculturalism will free themselves from invaders and traitors who seek to ruin them and rule God s kingdom the kingdom from which they hold the secrets

Robert G. Beard, Jr.,2016-02-10 Why is privacy so important If you have done nothing wrong what do you have to hide You would be surprised With over 4 500 federal crimes on the books and over 400 000 rules regulations you are most likely and unknowingly committing three felonies a day According to law professor John Baker there is no one in the United States over the age of 18 who cannot be indicted for some federal crime Forget about the NSA spying on you Much more devastating is the Bank Secrecy Act of 1970 which was significantly strengthened after 9 11 This Act turned Banks and other financial institutions into spies for the U S Government in particular the IRS This book discusses specific reasons why the Founders placed the Fourth Amendment the right to privacy the right to be left alone by Government in the U S Constitution It highlights how Congress aided by the Supreme Court has trampled on this extremely important individual right Luckily within these pages there may be hope on the horizon

**I Am the Law: How Judge Dredd Predicted Our Future** Michael Molcher,2023-02-23 He is the law and you better believe it Judge jury and executioner Judge Dredd is the brutal comic book cop policing the chaotic future urban jungle of Mega City One created by John Wagner and Carlos Ezquerra and launching in the pages of 2000 AD in 1977 But what began as a sci fi action comic

quickly evolved into a searing satire on hardline militarised policing and law and order politics its endless inventiveness and ironic humour acting as a prophetic warning about our world today and with important lessons for our future Blending comic book history with contemporary radical theories on policing I Am The Law takes key Dredd stories from the last 45 years and demonstrates how they provide a unique wake up call about our gradual and not so gradual slide towards authoritarian policing From the politicisation of policing to zero tolerance from violent suppression of protest to the rise of the surveillance state I Am The Law examines how a comic book warned us about the chilling endgame of today s law and order politics

*Deep State Defector* Rahul Manchanda,2017-12-05 Rahul Manchanda spent his entire life within the belly of the proverbial beast that is within the secret power structure of the United States and the international community where he was culled and prepped for bigger and better things within a leadership role in the Deep State New World Order Along the way he grew both alarmed and shocked at just how myopic and short sighted these Deep State New World Order types really were and how either inadvertently or purposefully the results of their clandestine and secretive plans of global divide and conquer often led to misery genocide death racism destruction of the family unit wasted money constant warfare terrorism and a frustration of the ideals of America as enshrined by the Founding Fathers within the U S Constitution A philosophical and ideological founder of the Anonymous movement with one of his own Associate Attorneys going on to start lead the Occupy Wall Street 99% Movement at Zuccotti Park in Lower Manhattan he published vast amounts of political deep state exposing articles anonymously until he was targeted by federal state local government mixed in conjunction with organized crime foreign domestic espionage and Edward Snowden revealed that there was no anonymity on the internet whereupon Mr Manchanda started writing and publishing his essays using his real name and identity The articles contained in this book are some of those articles written under his real name His book takes us on a journey to expose some of these conspiracies and plots within the U S Judicial Court and Legal System foreign and domestic policy non governmental organizations finance and economics international relations history and religion while sometimes analyzing many of the leading culprits in their ruthless and bloodthirsty quests for a Deep State New World Order and tries to bring attention to the plots and plans cautioning the governed about their governors History only repeats itself if the people are uninformed and his book tries to ensure that we as the human race do not fall into the existential pitfalls of ignorance but rather move into a future of enlightenment and learning from past historical mistakes in order to strengthen and preserve our freedoms into eternity

*"The Emperor Has No Clothes!"* Jeanne Gossett Halsey,2019-04-23 I m a believer in Absolutes I believe in the Laws of Physics Chemistry Biology Geology Mathematics Logic Cosmology and so on and in the Word of God the Bible I believe in the Law of Conception that when a female s egg is united with the male s sperm a human being is created and immediately upon fertilization the gender has been determined by the father s chromosomes The embryo that grows into a fetus that is delivered as a human baby has been carrying its gender identification from its first moment of existence The child is either a

boy or a girl no more no less and nothing in between This is more than fact it is truth The Final Arbiter of Truth is Jesus Christ *Choice* Dr.Ted Hallum,2019-05-10 The book is an overview of the various things going on in our deteriorating society with appropriate descriptions and with the opportunity to make appropriate choices during the process as one reads from chapter to chapter The book combines the political world the philosophical world and the Christian world as well as includes references to the deceptive practices currently underway to attack the Christian faith and the Christian church by Progressives Democrats and left wing agitators The hope for the world is revealed and discussed with the opportunity for a final decision based upon the evidence of the book *Schöne Neue Welt 2030* Jens Bernert,Matthias Burchardt,Hannes Hofbauer,Caitlin Johnstone,Anneliese Fickentscher,Andreas Neumann,Anselm Lenz,Peter Koenig,Ullrich Mies,Moritz Enders,Marco Pizzuti,Hermann Ploppa,Ernst Wolff,C. When Texas Prison Scams Religion Michael G. Maness,2023-05-22 When Texas Prison Scams Religion exposes corruption in the Texas Department of Criminal Justice especially in the abuse of religion In many ways this book is a literature review of 1 800 plus works that defends freedom of conscience in prison while exposing the unconstitutionality of the seminary program that buys faith with favor from prisoners The state veritably ordains the prisoner a Field Minister that represents the offices of the Governor TDCJ Director and wardens throughout the prison Therein TDCJ lies about neutrality in a program all about Christian missions and lies again in falsely certifying elementary Bible students as counselors Why is the director sponsoring psychopaths counseling psychopaths In fact TDCJ pays 314 million a year to UTMB for psychiatric care and receives not a single report of the care given and worse for UTMB generates no reports itself The underbelly TDCJ's executive culture of cover up is exposed TDCJ has hired the lowest qualified of the applicant pool many times in the last 25 years and regularly destroys statistics on violence TDCJ Dir Collier led the prison to model Louisiana Warden Burl Cain the

most scandal ridden in penal history according to a host of published news stories for 20 years Therein Collier led TDCJ to favor the smallest segment of religious society within Evangelical Dominionism Texas has no business endorsing the truth of any religion over another We close with a proposal that utilizes the 400 000 000 hours of officer contact over ten years as a definitive influence in contrast to a commissioner that spends less than 10 minutes on each decision Maness has been lobbying Austin for 15 years to definitively access staff for his 100 000 Mothers 1% Certainty Parole Texas Constitutional Amendment which would revolutionize prison culture and save Texans millions of the dollars Redeeming America Michael Lienesch,2014-04-15 This balanced and comprehensive study of Christian conservative thinking focuses on the 1980s when the New Christian Right appeared suddenly as an influential force on the American political scene only to fade from the spotlight toward the end of the decade In Redeeming America Michael Lienesch identifies a cyclical redemptive pattern in the New Christian Right s approach to politics and he argues that the movement is certain to emerge again Lienesch explores in detail the writings of a wide range of Christian conservatives including Jerry Falwell Pat Robertson Phyllis Schlafly and Tim and Beverly LaHaye in order to illuminate the beliefs and ideas on which the movement is based Depicting the thinking of these writers as a set of concentric circles beginning with the self and moving outward to include the family the economy the polity and the world Lienesch finds shared themes as well as contradictions and tensions He also uncovers a complex but persistent pattern of thought that inspires periodic attempts to redeem America alternating with more inward looking intervals of personal piety **The Evangelical Tradition in America** Leonard Sweet,Leonard I. Sweet,1997 The essays collected in The Evangelical Tradition in America range over a vast plain of historical inquiry Yet they are linked by a common purpose and vision of the exploration through ever widening avenues of research into one of the most important movements in American culture and the uncovering of forgotten ill conceived or half perceived features of the Evangelical tradition This volume opens up new territory recharts the old and challenges and corrects several gaps in the historical topography of American Evangelicalism Emerging from the Charles G Finney Historical Conference at Colgate Rochester Divinity School Bexley Hall Crozer Theological Seminary in October 1981 these essays offer exciting interdisciplinary insights into the role of Evangelical religion in American society As major contributions to scholarship in American religion these investigations forge beyond the borders of Evangelicalism s role in issues now being explored by many American historians on the South blacks women urban centers millennialism and organizational structures They also provide directions from which to view Evangelicalism s impact on American history from the perspective of Southern popular religion the psychological aspects of black evangelicalism the stream of intellectual history and the Enlightenment and evangelical roots of millenarian ideology *The Scientific Spirit of American Humanism* Stephen P. Weldon,2020-10-06 The story of how prominent liberal intellectuals reshaped American religious and secular institutions to promote a more democratic science centered society Winner of the Morris D Forkosch Award for Best Book by the Center for Inquiry Recent

polls show that a quarter of Americans claim to have no religious affiliation identifying instead as atheists agnostics or nothing in particular A century ago a small group of American intellectuals who dubbed themselves humanists tread this same path turning to science as a major source of spiritual sustenance In *The Scientific Spirit of American Humanism* Stephen P Weldon tells the fascinating story of this group as it developed over the twentieth century following the fortunes of a few generations of radical ministers academic philosophers and prominent scientists who sought to replace traditional religion with a modern liberal scientific outlook Weldon explores humanism through the networks of friendships and institutional relationships that underlay it from philosophers preaching in synagogues and ministers editing articles of Nobel laureates to magicians invoking the scientific method Examining the development of an increasingly antagonistic engagement between religious conservatives and the secular culture of the academy Weldon explains how this conflict has shaped the discussion of science and religion in American culture He also uncovers a less known but equally influential story about the conflict within humanism itself between two very different visions of science an aspirational democratic outlook held by the followers of John Dewey on the one hand and a skeptical combative view influenced by logical positivism on the other Putting America's distinctive science talk into historical perspective Weldon shows how events such as the Pugwash movement for nuclear disarmament the ongoing evolution controversies the debunking of pseudo science and the selection of scientists and popularizers like Carl Sagan and Isaac Asimov as humanist figureheads all fit a distinctly American ethos Weldon maintains that this secular ethos gained much of its influence by tapping into the idealism found in the American radical religious tradition that includes the deism of Thomas Paine nineteenth century rationalism and free thought Protestant modernism and most important Unitarianism Drawing on archival research interviews and a thorough study of the main humanist publications *The Scientific Spirit of American Humanism* reveals a new level of detail about the personal and institutional forces that have shaped major trends in American secular culture Significantly the book shows why special attention to American liberal religiosity remains critical to a clear understanding of the scientific spirit in American culture

**By Any Other Name** James G. Abernathy, 2007-09-01 Have you ever wondered what a worldview is and why it's so important how liberal and conservative Christians both claim the Bible as their foundation why different worldviews attempt to solve the same problems in different ways how two people who formally espouse different worldviews can agree on so many issues why secularism is just as religious as Christianity why secularism has its own mythology why secularists want to silence Christianity in America's legislatures courts schools and churches why education is nearly always offered as a solution to society's ills and why it won't work how to formulate positions on contemporary issues not directly mentioned in the Bible why Christians are often ineffective at influencing culture Abernathy answers these questions and many more by examining the relationship between ideas and their real world consequences This foundational relationship is key to understanding secularism to understanding why its attempts to solve society's problems produce disastrous real world

consequences and how its ideas infiltrate the biblical principles of even the most committed Christians Abernathy sifts through the deceptive language of secular orthodoxy and shows how secularism by any other name still has tragic real world consequences Ideologies such as humanism postmodernism and liberal Christianity are exposed as repackaged havens of a failed worldview Seemingly well intentioned notions such as progressive education pacifist foreign policy tolerance and wealth redistribution are debunked as deceptive myths peddled by an impoverished faith By Any Other Name shatters the secular barrier erected to exclude Christianity from the marketplace of ideas and lays the groundwork for engaging a culture contaminated by secular mythology

**Culture and Structure at a Military Charter School** Brooke Johnson, 2014-10-23 Taking military charter schools as her subject and drawing on years of research at one school in particular Brooke Johnson explores the underpinnings of a culture based on militarization and neoliberal educational reforms and probes its effects on individual identity and social interactions at the school

**America's God and Country** William J. Federer, William Joseph Federer, 1994 An invaluable resource highlighting America's noble heritage profound quotes from founding fathers presidents statesmen scientists constitutions court decisions for use in speeches papers debates essays

**Creatures of Cain** Erika Lorraine Milam, 2018-12-11 How Cold War America came to attribute human evolutionary success to our species' unique capacity for murder After World War II the question of how to define a universal human nature took on new urgency Creatures of Cain charts the rise and precipitous fall in Cold War America of a theory that attributed man's evolutionary success to his unique capacity for murder Drawing on a wealth of archival materials and in-depth interviews Erika Lorraine Milam reveals how the scientists who advanced this killer ape theory capitalized on an expanding postwar market in intellectual paperbacks and widespread faith in the power of science to solve humanity's problems even to answer the most fundamental questions of human identity The killer ape theory spread quickly from colloquial science publications to late night television classrooms political debates and Hollywood films Behind the scenes however scientists were sharply divided their disagreements centering squarely on questions of race and gender Then in the 1970s the theory unraveled altogether when primatologists discovered that chimpanzees also kill members of their own species While the discovery brought an end to definitions of human exceptionalism delineated by violence Milam shows how some evolutionists began to argue for a shared chimpanzee-human history of aggression even as other scientists discredited such theories as sloppy popularizations A wide-ranging account of a compelling episode in American science Creatures of Cain argues that the legacy of the killer ape persists today in the conviction that science can resolve the essential dilemmas of human nature

**Religious Fundamentalism and American Education** Eugene F. Provenzo Jr., 1990-04-05 For the past twenty-five years ultra-fundamentalist Christians have put increasing pressure on American public education to conform exclusively with their own philosophy and vision of education and culture Eugene Provenzo considers and addresses the impact that the fundamentalist movement has had on such issues as censorship textbook content Creationism versus Evolution the family and education

school prayer and the state regulation of Christian schools In exploring both sides of the debate however the author concludes that many fundamentalists concerns are justified due to a basic inconsistency between the rights guaranteed under the First Amendment and the position that many public schools have legally assumed
