responds to these questions to offer a fresh understanding of design practices within the sprawling shifting fashion system. Fashion design is typically viewed as the rarefied practice of elite professionals or else as a single stage within the apparel value chain. Alice Payne shows how design needn't be reduced to a set of decisions by a designer or design team but can instead be examined as a process object or agent that shapes fashion's material and symbolic worlds. *Designing Fashion's Future* draws on more than 50 interviews with industry professionals based in Australia, Asia, North America, Europe, and the United Kingdom. These diverse perspectives from multinational retailers, independent and experimental contexts ground the discussion in contemporary industry practices. *The Fashion Forecasters* Regina Lee Blaszczyk, Ben Wubs, 2018-03-08. The fashion business has been collecting and analyzing information about colors, fabrics, silhouettes, and styles since the 18th century, activities that have long been shrouded in mystery. *The Fashion Forecasters* is the first book to reveal the hidden history of color and trend forecasting and to explore its relevance to the fashion business of the past two centuries. It sheds light on trend forecasting in the industrial era, the profession's maturation during the modernist moment of the 20th century, and its continued importance in today's digital, fast-fashion culture. Based on in-depth archival research and oral history interviews, *The Fashion Forecasters* examines the entrepreneurs, service companies, and consultants that have worked behind the scenes to connect designers and retailers to emerging fashion trends in Europe, North America, and Asia. Here you will read about the trend studios, color experts, and international trade fairs that formalized the prediction process in the modern era and hear the voices of leading contemporary practitioners at international forecasting companies such as the Doneger Group in New York and WGSN in London. Probing the inner workings of the global fashion system, *The Fashion Forecasters* blends history, biography, and ethnography into a highly readable cultural narrative. *Developing a Fashion Collection* Elinor Renfrew, Todd Lynn, 2021-09-09. How do fashion designers conceive of, develop, and ultimately launch commercially and creatively successful collections? *Developing a Fashion Collection* walks you through the process, exploring research techniques, sources of inspiration, forecasting trends, and designing for different markets. From couture to high street, knitwear to accessories, and covering the implications of online shopping, there's advice on every aspect of creating your collection through 27 insightful interviews with international practitioners. Interviewees include John Mooney, Brand Creative Director at ASOS, and Jane Palmer Williams, Head of Executive Development at LVMH. This 3rd edition also covers silhouette fittings and final samples, sustainable practice, developing high street collections, fabric selection, and finding inspiration through vintage designs. *The Trendmakers* Jenny Lantz, 2016-06-30. Numerous tastemakers exist in and between fashion production and consumption, from designers and stylists to trend forecasters, buyers, and journalists.
